INTIMATION OF GREEK GOVERNMENT CAUSE OF ANXIETY AMONG ALLIES

Entente Troops Seeking Refuge in Constantine's Country to be Disarmed.

MAY SURPRISE THE KING

May Remind Him That His Retention of Throne Depends on Friendliness.

Fight for Serbia Proceeds Without Abatement.

London, Nov. 15.—The intimation of the Greek government that any Entente allied troops seeking refuge in Greek territory will be disarmed has been the cause of considerable anxiety to the Entente Powers, and consequently Field Marshal Earl Kitchener's Near East visit gains added importance.

According to belated dispatches received from Athens, Greece bases her decision on international law. while the Entente ministers contend that the right accorded troops to enter the country through Saloniki permits them to retire by the same route should it become necessary for them to do so. The ministers are demanding that Greece unequivocally define the attitude she will observe should such an eventuality present itself.

Several Claims on Greece

Besides the claims to hospitality which the Entente Allies declare they have on Greece, in view of the then Premier Venizelos' invitation to them to send a force to Saloniki to enable Greece to fulfill her treaty obligations to Serbia, which, however, Greece repudiated, Earl Kitchener or the entente ministers are likely to draw the attention of King Constantine and his government to the fact that the constitutionalism of Greece was guaranteed by France, Russia and Great Britain and that it was only obtained after Great Britain had ceded the Ionian lands to that country and the three powers had agreed to contribute $20,000 yearly for the personal use of the king.

This, it is contended, binds the Greek people to the Entente Allies, and should King Constantine overrule this constitution, which the followers of M. Venizelos insist he did when he dissolved the chamber, it is suggested in some quarters that King Constantine would be reminded that his retention of the throne of Greece depends on the continuance of friendly neutrality toward the Entente Powers.

Germany Plays a Hand.

The Germans, on the other hand, are declared to be assuring the Greek government that Greece will be protected against the Entente Allies should that country support the Central Powers, and that as evidence of the ability of Austria and Germany to do this they are dispatching more submarines to the Mediterranean which could be used against and fleet threatening Greek ports.

Meantime the fight for Serbia proceeds without abatement. The Austro-Germans and Bulgarians claim repeated successes, but it is apparent their progress is slow, the Serbians having reached their mountain fortresses in central Serbia and the want of roads making it difficult for the invaders to bring up their heavy artillery with which they always back up their infantry.

In the south, there is little or no change. In the district northwest of Uskup, the Serbians still hold the Katchanik defile, barring the Bulgarians from the great plain of Kosovo, while to the southwest of Uskup a desperate struggle has taken place for the possession of Tettovo, which has changed hands several times. The Bulgarians re-captured Tetovo yesterday, but a report received at the Serbian legation tonight says the Serbians have again re-occupied the town.

The Bulgarians are reported in great force southwest of Vales where they hope to check the French advance on that town and in the direction of the Babuna pass, farther west.

Fighting in West Revived.

There has been a revival of hard fighting on the western front. The Germans claim toh ave captured 300 metres of a trench near Ecurie while the French report that repulse of German attacks against the labyrinth in Artois and also against Tahure in Champagne.

The Russians continue their offensive west of Riga and are making an effort to secure control of the railway which connect Mitau and Winda. Farther south they have attacked the Germans near Smorgon, on the railway running eastward from Vilna. This attack probably was undertaken to prevent the Germans from sending reinforcements to the Riga sector. The

ROBERT FAY WANTS TO PLEAD GUILTY

...lks for Five Hours to District Attorney Knox.

...ELLS STORY OF LIFE

...atements Lead Back to Source to Which Officials Have Traced Another Case Which is Under Investigation.

New York, Nov. 15. — Robert Fay, self-styled lieutenant in the German army and by his own confession head of a gang of bomb makers that sought to disable ammunition laden ships sailing from New York to the Entente Allies, told the story of his life today to Assistant United States District Attorney Fox. Fay talked for five hours without interruption. What he said was not made public, but Mr. Knox announced that Fay wanted to plead guilty to the government's charges against him.

P. J. McDonald, a lawyer, appointed by the court to represent Fay, served on Mr. Knox notice of his intent to demur to the indictment. Fay read the demurer and, according to Mr. Knox, said he did not wish to demur to the indictment or to do anything but plead guilty and start at once to serve his sentence.

Part of Story Verified.

Fay's talk with Mr. Knox was upon his own solicitation and without promise of leniency. The statement carried the prisoner back to Germany, covered the high lights of his service in the German army, told in detail of his alleged mission to America and recited his activities here. District Attorney Marshall said in some respects the statement was verified by information which the government had collected.

"There is no doubt," Mr. Marshall said, "that his name is Fay and that he served in the German army. As to the rest, we don't know. His statement differs somewhat from his previous story, but admits his guilt of the charges against him."

What Fay told Mr. Knox today leads back to a source to which already has been traced another case under investigation, according to Roger B. Wood, an assistant in Mr. Marshall's office. Mr. Wood has prepared most of the cases in the passport frauds, and also prepared the government's case against Karl Buenz and other officials of the Hamburg-American Line, indicted on a charge of conspiracy, and to be placed on trial this week.

Believes There is Fifth Man.

"Five cases of this sort lead back

PARTS OF HUMAN BODY FOUND IN TRASH PILE

Atlanta Police Investigate Theory of Murder.

Negro Women Say They Heard Screams of a Woman for Help as a Cab Passed Their Homes Sunday Morning.

Atlanta, Ga., Nov. 15.—The finding by negro boys of a human foot on a city dumping ground in the outskirts of Atlanta today led to a police investigation which disclosed other pieces of human flesh, including parts believed to be from the trunk and thigh. The foot and other flesh appeared to be that of a white woman.

A police theory that a woman had been murdered and parts of her body hidden in the garbage pile, apparently was strengthened by statements of three negro women living nearby that early Sunday morning a cab dashed past their homes and they heard a woman scream for help.

Detectives later found pieces of a woman's clothing near where the human remains lay, but were unable to discover other human parts. The clothing appeared to have been hacked up with a sharp instrument. Search was being made tonight for a cabman who might have passed that section early Sunday.

Inquiry at local hospitals and medical colleges, detectives said, showed that no parts of a body, removed in an operation or in dissection had been disposed of so that they would reach a city dumping ground. Negroes who daily search the garbage heap for possible valuables, said the pieces of flesh were not there Saturday.

Washington, D. C., Nov. 15.—A. B. Allen and others, of Goldsboro, were here today in the interest of the case recently filed with the Interstate Commerce Commission alleging discriminatory rates on lumber by the Atlantic Coast Line and others to North Carolina points. P. R. A.

ADVOCATES PEACE TO FREE BELGIUM

Speech of Liberalist Before House of Commons.

SAYS WAR MEANS RUIN

Bonar-Law Condemns Speech, Saying Germany Will Not Libertate Belgium or Restore Alsace Until She is Beaten.

London, Nov. 15. — Charles P. Trevelyan, liberal member for New Ork, in a speech in the house or commons today, urged the formulation of terms of peace for the purpose of trying to obtain by negotiations instead of by bloodshed the restoration of Belgium and the settlement of European boundaries on lines of nationality.

"Germany," said Mr. Trevelyan, "to preserve her existence can continue the war six years. Meanwhile what is going to happen to us and the rest of the world? A war of attrition means for us, as well as for Germany, utter and irretrievable ruin."

Andrew Bonar-Law, minister for the colonies, condemned Mr. Trevelyan's speech as useless and mischievous.

"There is not another member of the house," said Mr. Law, "who believes for a moment that Germany will free Belgium or restore Alsace to France until she is thoroughly beaten, and the British government is as determined now as it was on the first day the war was forced on us that it should continue until the objects sought by it are attained."

T. P. O'Connor, one of the Irish nationalist leaders, said that the view should not be permitted to go abroad that Trevelyan represented any considerable section of parliament or of the country. Until Germany was defeated, he added, it was certain that she never would consent to terms of peace satisfactory to the Allies.

Sir Edward Carson told the House that he left the cabinet when it came to an emphatic decision on the advice of its military advisers, that it was too late to assist Serbia. He protested, if it were too late to assist Serbia that country ought to be told, so that she could take such steps as would save her from destruction. It was not until General Joffre came to England thatt he policy announced by Premier Asquith was decided upon.

The prime minister replied that there had never been any decision that England that the policy announced by need, if the military and political situation demanded it. He denied that there had been any avoidable delay in making preparations to come to the aid of Serbia.

WILL NOT MAKE INVENTION PUBLIC UNTIL END OF WAR.

Will Eliminate Static Interference With Wireless Messages.

New York, Nov. 15.—Because his invention might be useful to the enemies of his country, Serbia, Prof. Michael I. Pupin, of Columbia University, who is hohorary Serbian consul general to the United States, told the members of the National Academy of Sciences here tonight that he would not make public until the war is over the secret of the receiver for the use in wireless telegraphy and telephone by which static interference can be eliminated. The completion of Prof. Pupin's experiment was reported several weeks ago but the formal announcement was made in his address before the academy.

The new instrument, Prof. Pupin claims, is the one thing needed to make possible the transmission of wireless messages between any two points on the earth's surface. By its use, the inventor says, the receiver can be made to record only those sound-waves which the operator desires to hear.

GRAND OPERA SEASON ON AT METROPOLITAN OPERA HOUSE

Ten Minutes Before Curtain as High as $150 Was Offered for Chairs.

New York, Nov. 15.—Camille Saintsaen's opera, "Samson et Delila," tonight ushered in the grand opera season at the Metropolitan Opera House before a great assemblage. At the box office ten minutes before the curtain $150 was offered for a pair of orchestra chairs.

The opening brought together masters of music from Italy, Germany, Austria and France. With two notable exceptions, the European war failed to affect the personnel of the cast. Toscanini and Dinh Gilly, French baritone, will take no part in the season's offerings. Giorgio Polacc, well known to American opera lovers, wielded Toscanini's baton.

WANTED IN SPARTANBURG.

Governor Honors Requisition for Greek Under Indictment.

(Special Star Correspondence.)

Raleigh, N. C., Nov. 15.—Governor Craig honored today a requisition for Spiro Papas, a Greek, who is wanted in Spartanburg on the charge of embezzling $700 while managing a cafe, The Greek resisted extradition and there was a hearing after which the order was made honoring the requisition. A. B. Andrews represented the officer who came for Papas and Chas. U. Harris was counsel for the fugitive.

New York, Nov. 15.—John Purroy Mitchel, mayor of New York, underwent a successful operation for acute appendicitis in a local hospital late today. The hospital authorities stated tonight that the mayor had passed through the operation well and that his condition was satisfactory. Mr. Mitchel was taken ill with appendicitis early this morning.

ITALY CLAIMS THE ANCONA WAS GIVEN NO WARNING SHOTS

Lansing Receives Italian Communication Addressed to All Neutral Nations.

NO WORD FROM VIENNA

Officials Are Awaiting Austrian Report Before Taking Further Action.

Washington, Nov. 15.—Secretary Lansing personally received today from Macchi Di Cellere, the Italian ambassador, a communication addressed by Italy to all neutral nations, denouncing as "an unparalleled atrocity" the sinking of the Italian liner Ancona with scores of neutrals and other non-combatants aboard. The statement recites the circumstance of the attack, charging that "without even a blank shot" of warning from the attacking submarine, the vessel was shelled and that the killing and wounding of passengers continued after the ship had stopped. No reference is made to the nationality of the submarine.

As yet Ambassador Penfield has not been instructed to call at the Vienna foreign office for information, but he probably will be shortly, in view of the issuance of a statement by the Austro-Hungarian admiralty describing the attack.

Awaiting Austrian Report.

Upon receipt of the facts as stated in Vienna the Washington government will consider whether any rights of American citizens have been violated. The admiralty statement which has been seen by officials here in the press, is at variance with that of Italy. It declares that the Ancona attempted to escape and was stopped only after repeated shelling. Austria further claims that the passengers and crew were given 45 minutes to leave in small boats and the charge that the submarine fired on the boats is denied.

While officials were disinclined to comment in view of the contradictory information, the general belief is that the entire question of submarine warfare and the obligations of a submarine commander to see that neutrals are in a place of safety before destroying a prize will be taken up by the United States with the Austrian government.

The italian communication to neutral governments says:

Described as Outrage.

"The government of the United States is doubtless aware of the particulars reported by the press in connection with the outrage perpetrated by the enemy upon italian shipping on November 7.

"More than once the destruction of Italian merchantmen has taken place under circumstances which permitted no other explanation than that there was behind the procedure a ruthless purpose to use brutish force against private property of innocent persons. Non-combatant passengers and crews already have been the victims of these methods, but never has there been an instance of such unparalleled atrocity as in the case of the sinking of the Ancona. The unarmed liner, en route to New York was steaming westward between the coasts of Sardinia and Tunis carrying passengers and cargo destined for America.

Not "Necessity of War."

"It was out of the question that the vessel could have been suspected of

(Continued on Page Two)

FUNERAL TOMORROW OF BOOKER T. WASHINGTON

Interment in Grounds of Tuskegee Institute.

Arrangements for Simple Services—Memorial Exercises Will Be Held During the Funeral Hour at Charleston, W. Va.

Tuskegee, Ala., Nov. 15.—Completed funeral arrangements for Booker T. Washington, the noted negro educator, who died yesterday morning from a nervous breakdown, as announced today, contemplate simple services. The Rev. J. W. Whitaker, chaplain of Tuskegee Institute, will officiate at the services, which will be held at 10 o'clock Wednesday morning. Interment will be made in the grounds of the institute which Washington founded. The body will lie in state Tuesday in the chapel of the institute.

HOLD MEMORIAL SERVICES

Negroes of West Virginia to Gather at Washington's Old Home.

Charleston, W. Va., Nov. 15.—Memorial services for Booker T. Washington will be held here Wednesday morning at the hour set for the funeral at Tuskegee, Ala., was the oldest and all parts of the state, where Dr. Washington resided after being freed from slavery, are expected to be present.

Conscription Next?

Lord Derby.

Lord Derby, with the consent of Premier Asquith of Great Britain, has issued a statement in which conscription is threatened for November 30. He was given authority some time ago to try out a plan for volunteer enlistment, but it has not proved as successful as he hoped. He now says unless the men physically and financially fit come forward in sufficient numbers by November 30 conscription will be resorted to.

SENORA'S CAPITAL IS THE OBJECTIVE POINT

Both Villa and Carranza Troops are Gathering

Reports Say Attack on Hermosillo Has Already Been Begun by Villa With 11,000 Men—Forces Abandon Cananea.

El Paso, Texas, Nov. 15.—Hermosillo, capital of the state of Sonora, was the objective of troop movements by both Billa and Carranza forces today. General Diegues, reported to have 8,000 men and 24 cannon, is said to be entrenched in the capital awaiting Cilla's attack. Reports to Nogales said Villa already had begun the attack on the town. He is said to have 11,000 men. Six thousand men are reported on the way from Guaymas to reinforce Dieguez.

Seven thousand Carranza troops are marching from Agua Prieta to Naco to attack Villa there. This movement was begun yesterday by direction of General Obregon in command of Carranza forces. General Calles, commander of the Agua Prieta garrison, left for Naco today, announcing that he would take personal command of the troops moving to attack Villa from the north.

General Jose Rodriguez, the Villa commander who evacuated Naco yesterday, today abandoned Cananea to which point he had moved when pursued by a Carranza force under Colonel Cardenas.

Two thousand Carranza cavalry were sent by rail today from Agua Prieta to Nacozari to protect the Sonora river valley.

DYING FOR WANT OF FOOD

Food Riots Almost Daily in Towns Throughout Chihuahua

Laredo, Texas, Nov. 15.—People are dying in the streets and food riots are of almost daily occurrence in towns throughout the state of Chihuahua, controlled by Villa forces, according to passengers arirving here today from that portion of the Mexican interior. Food supplies are cut off from the south and Villa and his government are unable to furnish supplies from the north, it is said. It was believed, the passengers said that if the entrance of the Carranza forces was long delayed the situation in Chihuahua City would become most serious.

MAY USE SHERMAN ACT.

Investigating War Plots for Possible Criminal Indictments.

Washington, Nov. 15.—Handicapped by the lack of specific laws tot protect the nation's neutrality, the Department of Justice is investigating alleged war plots with a view tot instituting criminal proceedings under the Sherman anti-trust act.

The inquiry, it was learned tonight, is directed particularly at plots supposed to have been formed in connection with efforts of pro-German and pro-Austrian sympathizers tot cause strikes in munition plants. The department's theory is that if there is a conspiracy to interfere with the manufacture of munitions, it is a conspiracy in restraint of interstate and foreign commerce.

CHURCHILL SPEAKING IN HIS OWN DEFENSE WINS MUCH APPLAUSE

MELLEN ADMITS HE WAS RESPONSIBLE

For New Haven's Policy of Acquiring Trolley Lines.

TOOK OVER 65 LINES

Defense Protests Length of Time Government is Taking in Presenting Its Case, Charging That Interest Has Been Lost.

New York, Nov. 15.—Charles S. Mellen, former president of the New York, New Haven & Hartford Railroad, today assumed the responsibility for the New Haven's policy of acquiring New England trolley lines which the government, in the trial of the eleven former directors of the road, charges was a part of the New Haven's alleged plan to monopolize commerce.

Mr. Mellen testified that in 1904 he urged on the board the necessity of a comprehensive plan of acquisition of trolley properties or else to drop the lines it had acquired.

"I told my directors time and again," he said, "that the road ought to supply the public with its needs and that meant trolleys, steamships and railroad lines. It was my policy and I always put it forward that the public should be supplied with all classes of transportation it demanded."

Sixty-five trolley lines went into the New Haven system in pursuance to the Mellen policy, it was brought out, the acquisition of which the prosecution began to establish one by one. The testimony was only admitted conditionally, however, as Judge Hunt stated that where the trolley lines were shown to have operated within the borders of a single state, he doubted that their acquisition was necessarily a violation of the Sherman law, which applies to interstate commerce.

When the day's session adjourned the prosecution had touched upon less than a dozen of the 65 lines and the defense protested over the length of time the government was taking in presenting its case.

"The jury has lost interest," said Delancey Nicoll, of counsel of the defense, "all the lawyers have lost interest, the spectators have lost interest, and I'm sure the public has."

Walsh, lightweight champion of the world, outpointed Johnny O'Leary, of Seattle, claimant to the Canadian title, in a 12-round bout here tonight. Walsh led in nine rounds, in the opinion of a majority of the ewspaper writers at the ringside.

WOMEN WILL WORK FOR AN ADEQUATE DEFENSE

Woman's Section of the Navy League Organized.

Adopt Resolutions Calling Upon the President and Congress to Support Legislation for Better "Preparedness."

Washington, Nov. 16.—The woman's section of the Navy League, holding its first annual meeting here today, affected a permanent organization and resolved to enlist a million members by January 1 to aid in the campaign for national preparedness. Each of the 48 states, the District of Columbia, Hawaii and the Panama zone are represented on the board of governors elected at the business session.

Resolutions adopted called upon the President and other officers of the government to support legislation for adequate national defense and provided for the observance of the opening day of Congress each year as "National Defense Day," with meetings and rallies throughout the country under the auspices of the organization.

Assistant Secretary Roosevelt of the Navy Department, addressing the women suggested that one of the most practical ways in which they could help the navy was by persuading all men who never had been in the service to join the naval reserves.

Mrs. O. H. P. Belmont, of New York, discussed the right of women to a part in preparations for war. "Women demand that they be consulted in public affairs, and in war especially," she said, "since it is they who supply every man sent to be killed and because women suffers mentally and physically infinitely more than man in war."

Mrs. William Cumming Story, president of the Daughters of the American Revolution, announced that she had called on everyone of the 115,000 members of that society to join the woman's section of the Navy League. The meeting closed tonight.

Answers Criticisms of His Direction of the War in the House of Commons.

HAD EXPERT COUNSEL

Dardanelles Attack "Not a Civilian Plan Foisted by a Political Amateur."

Justifies His Action While Head of Admiralty.

London, Nov. 15.—Winston Spencer Churchill, who has been the most severely criticised member of the government and who has been held personally responsible for the loss of Rear Admiral Christopher Cradock's fleet in the Pacific, the destruction by submarines of the British cruisers Cressy, Hogue and Aboukir, the ill-fated Antwerp expedition and the initiation of the naval attack on the Dardanelles, delivered a speech in his own defense in the house of commons today following the resignation of his post in the cabinet.

Had Advice of Experts.

"I won't have it said," was his drastic assertion, referring to the Dardanelles attack, "that this was a civilian plan foisted by a political amateur upon reluctant officers and experts." And this sums up his reply to all his critics. In every case he showed that experts had counseled and concurred before any of the expeditions which had been condemned were undertaken, and it was clear before he had gone far that the house of commons sympathized with him.

For months Mr. Churchill has lived under reproaches. His entrance to the house today was passed almost unnoticed. As he rose his spectators gave him encouraging cheers. Approbation increased in volume as he answered one charge after another, and he concluded amidst a hurricane of applause, while members of all political parties congratulated him.

There was nothing apologetic about the speech of the former first lord of the admiralty, who some months ago was transferred to the chancellorship of the duchy of Lancaster, the office he has just resigned. His reference to Admiral Lord Fisher, the former first sea lord, who, he said, had not openly opposed the Dardanelles undertaking, were spoke in firm tones of condemnation.

Fully Justified Himself.

In the opinion of the house Mr. Churchill fully justified every step he took while head of the admiralty.

As to the dispatch of Rear Admiral Craddock's squadron, he said he was in full agreement with the experts and advisers of that time—Admiral Prince Louis, of Battenberg, and Vice Admiral Sir Frederick Sturdee—and that the dispositions were the best that could be made in the circumstances.

There was no truth in the charge that he had ordered, against the advice of experts, the Hogue, Cressy and Aboukir to remain at sea where they were sunk by German submarines.

The Antwerp expedition originated with Lord Kitchener, the secretary for war, and the French government; while the naval attack on the Dadanelles had the full support of the advisers at home and those on the spot.

Both with regard to Antwerp and the Dardanelles, Mr. Churchill went a little further than merely producing evidence that he had followed expert advice. A month before the Antwerp expedition was undertaken, he said, he had advised with Premier Asquith, Sir Edward Grey, the foreign secretary, and Lord Kitchener as to the dangerous situation developing then and the grave consequence to admiralty interests that would result from the loss of the fortress. "But," he added, "no action was taken."

Offered to Provide Transports

As to the Dardanelles, before a naval attack was undertaken, he offered to provide transports for 40,000 troops from Egypt, but was informed that no troops were available, and that if they were, they should not be used in Gallipoli. The naval attack was endorsed by Vice Admiral Carden, in command at the the time; by the war council, which Lord Fisher attended, and by the French ministry of marine.

Mr. Churchill paid a tribute to Lord Fisher for the improvements he had introduced in the navy since the outbreak of the war, and expressed confidence that ultimate victory would be achieved through the destruction of German manhood and the Allies' increasing strength.

Nashville, Tenn., Nov. 15.—Thirty states are represented in the second national conference on teacher training for rural schools, which assembled in Nashville today for a three days' session. Prof. J. L. Brien, of the United States Bureau of Education, presided today. A resolution was adopted expressing sorrow over the death of Booker T. Washington.

KITCHIN BELIEVES DEFENSE WILL WIN

Has Fear That "Overwhelming Majority" With Wilson.

LETTER TO C. L. COON

Says Many Democrats, Although Opposed to the Plan, Will "Fling Away Their Convictions" to Please President.

Washington. Nov. 15. — Representative Claude Kitchin, majority leader of the House, who opposes the administration National defense programme, has declared to a constituent his belief that it will succeed by an "overwhelming majority." In a letter written today by Representative Kitchin, to Charles L. Coon, of Wilson, N. C., the new majority leaders says:

"I shall oppose the big army and navy programme with all the earnestness and power I possess. However, my fear is that the President will push it through by an overwhelming majority. In the first place, practically all the Republicans will vote for it. In the second place, although I know that the convictions of four-fifths of the Democrats are opposed to it, many of them—I fear a large majority—will fling away their convictions on this question to please the President and do his will, as I have seen them do it on two or three occasions before."

Representative Kitchin declared that the programme "at one bound, in one year, increases our naval appropriation more than our total increase for the last 14 years; more than the increase by Germany the whole 15 years preceding the European war, and more than the combined increase of all the nations of the world in any one year of this history."

The North Carolina congressman asserts that "this sudden, radical and stupendous move for war preparations is going to shock the civilized world and, whatever be the outcome of the present war, will alarm the world again into an armed camp."

"The militarists and war traffickers of every nation in the world will point to our conduct as an example and a cause why big war preparations should be renewed on a larger scale than ever before."

Mr. Kitchin's statement that four fifths of the Democrats would oppose preparedness were it not for President Wilson's advocacy of it is disputed by administration officials.

ROBERT FAY WANTS TO PLEAD GUILTY

(Continued from Page One.)

to four sources." Mr. Wood said. "They are the Fay case, the Buenz case and three other passport cases. In none of the cases did the actual defendants know what the defendants in the other cases were doing. The four sources, however, directing these five cases are very close together—very. It is my belief that these four men all reported to and took their orders from a fifth man who was the director of all the trouble of this sort in the United States."

"If you could prove this," Mr. Wood was asked, "would you or could you prosecute this fifth man?"

"All I can say to that," he replied, "is that under the law we cannot prosecute any diplomatic representative of a foreign country?"

When Fay ended his statement, he was taken back to the tombs. He will be questioned by Mr. Knox tomorrow as the statement contained many leads, it is said, about which the government's lawyers want more information. Both Mr. Marshall and Mr. Knox declined to say if any one else were implicated in Fay's new statement.

STEAMER ADRIATIC REPORTED SUNK; WHICH ONE NOT KNOWN

White Star Officials in New York Do Not Credit Report.

New York, Nov. 15.—There was a report in maritime circles today that the steamer Adriatic had been sunk but the report did not state whether the steamship was the big passenger ship of the White Star Line or was the British steamship Adriatic, which left Kymassi, Greece, on October 13 for Philadelphia and passed Tarifa, Spain, October 19.

The White Star Line's Adriatic arrived in Liverpool November 11 and was not scheduled to leave for New York until November 11 and was not scheduled to leave for New York until November 24. The other steamship Adriatic bound for Philadelphia from Kimassi should be about in Mid-Atlantic today.

Officials of the White Star Line said they had no information regarding the Adriatic other than that she had arrived safely last Thursday in Liverpool. They did not credit the report.

SONS OF REVOLUTION MEET.

North Carolina Society Holds Annual Session in Raleigh.

(Special Star Correspondence.)

Raleigh, N. C., Nov. 15.—The North Carolina Society Sons of the Revolution held their annual meeting this afternoon with Col. Benehan Cameron, vice president, presiding in the stead of Col. J. Bryan Grimes, president, who is detained at Grimesland on account of the illness of his mother, who has been in failing health for some time. The society did not hold its usual annual banquet for the reason that a number of the members are so situated that they could not take part in such a festivity at this time. All old officers were re-elected for the next year. The society postponed tot a later date the ceremony of presenting to the State an oil portrait of Joseph Howes, one of the signers of the Declaration of Independence.

GRAND STAND BURNED

Fourteen Stables Also Burned at Historic Bennings Race Track

Washington, Nov. 15.—Fire tonight destroyed the grandstand and 14 stables at historic Bennings race track on the outskirts of Washington. One stableman is missing, four others were badly burned and ten valuable horses were burned to death. A cigarette thrown on a board walk outside of the grounds is believed to have started the blaze.

BELIEVES ARMY REPORT SHOULD BE MADE KNOWN

Garrison to Urge Its Immediate Publication.

General Staff's Recommendation of Needs Differs Widely and Involves More Expense Than Continental Army Plan.

Washington, Nov. 15.—Immediate publication of the report of the army general staff on the country's military needs, differing materially from the administration's continental army scheme, will be urged upon President Wilson by Secretary Garrison. The Secretary, who has described the administration plan as only a step in the right direction, said today he believed the public was entitled to all available information relating to the National defense.

The general staff's report, it is understood, recommends increasing the regular army to 250,000 men, permanently with the colors, and with reserves of 300,000 fully trained men to fill gaps in this force.

Behind this line it is proposed to have a force of a million men with at least a year's training, giving the country an army of about 1,500,000 men, fully equipped and easily mobilized. No synopsis of the report has been given out and details are not available.

The administration plan was prepared by Secretary of War Garrison and a special board of officers after careful scrutiny of the staff report. It was decided that the staff proposals were so radical that there virtually was no hope of getting Congress to enact them. Various unofficial estimates have placed the cost involved at more than twice that of the continental army scheme which would reach a total of half a billion dollars in six years.

The staff estimates, it is reported, that it takes at least a year to make a soldier fit to join the fighting line. The continental army programme contemplates only six months of hard training, distributed through three years. It was adopted to diminish the expense and yet produce a force of citizen soldiers nearly a million strong to support the regulars, increased to approximately 142,000 from the 103,000 now in the service.

ITALY CLAIMS THE ANCONA WAS GIVEN NO WARNING SHOTS

(Continued From Page One).

carrying arms or contraband or persons in the service of any of the belligerents. In fact, none of the circumstance alleged in other cases in an attempt to justify actions described by their authors as a necessity of war or as a reprisal, were present in the case of the Ancona.

"There are principles that no state ought to disregard and no private individual could violate with impunity. Respect for the lives of persons in no way participants in a war is among these fundamental rules of humanity and international law. This rule imposes upon belligerents the strict obligation to do all in their power in every circumstances to protect the lives of such passengers.

"Without Any Warning."

"Without any warning whatsoever, without even a blank shot, without observing any of the formalities accompanying the right of search, the submarine encountered by the Ancona in the aforementionad circumstance, opened fire upon the unarmed passenger liner, ruthlessly shelling not only the wireless apparatus, sides and decks of the ship while she was at a stop, but even the life boats in which the terrorized passengers were seeking refuge. Many of the passengers were killed outright, or wounded. Some who approached the submarine in the hope of rescue were driven off with jeers. As a result of this inhuman procedure more than 200 men, women and chidren lost their lives.

"The Royal government regards it as a duty to denounce solemnly to all nations the circumstances described above. Their sentiments of justice and humanity will cause them without doubt to judge, as it deserves, the conduct of an enemy which is absolutely contrary to the dictates of civilization and the recognized principles of international law."

INTIMATION OF GREEK GOVERNMENT CAUSE OF ANXIETAY AMONG ALLIES

(Continued from Page One.)

Germans claim to have driven the Russians back across the Styr river.

The Italians continue their offensive against the Austrians. Vienna's report, like preceding ones, says the offensive has failed. British forces in Mesopotamia are reported to have been two weeks ago at Azizaah, 40 miles by road from Bagdad.

BERLIN OFFICIAL STATEMENT.

Capture of 8,500 Serbians and Twelve Cannon Announced.

Berlin, Nov. 15 (by wireless to Sayville)—Announcement was made by the war office today of the capture of 8,500 Serbians with 12 cannon. Of these 7,000 prisoners and six cannon were taken by the Bulgarians. Pursuit of the Serbians is being continued all along the front.

The war office also announced a defeat of the Russians ain Galicia. The troops of General von Linsingen drove back the Russians from the west bank of the Styr river. The entire west bank has now been cleared. Russian attacks near Smorgon, east of Vilna, were repulsed.

On the western front the Germans stormed a French trench 300 yards long, northeast of Bourie.

Several Arrests Last Night.

The policemen were busy last night. Among those taken in were Paul Brown, colored, charged with assault on his wife, arrested by W. T. Hansley, out on bond; Claude Powell, white, beating his wife and disorderly conduct, arrested by O. B. Thompson, in city prison in default of bond; Simon Lee, George C. Johnson, Robert Sterling, all colored, charged with stealing roller skates and garden hose nozzles, arrested by A. E. Munn, in city prison; Lacie Sterling, colored, charged with stealing chickens, arrested by A. E. Munn, in city prison.

HOW THE WOUNDED OF FRANCE ARE EDUCATED

Become Useful Citizens By Learning New Trades

Stricken, Crippled and Maimed are Taken to St. Maurice Where They Are Treated and Trained in Big Government School.

(Correspondence of Associated Press.)

Paris, Nov. 1.—The French government recently gave facilities to the Associated Press and a party of foreign journalists to inspect some of the remarkable work which is being done for the regeneration of the ranks of stricken, crippled, maimed, and apparently hopeless wounded who are borne back from the fighting line at Champagne.

Under the escort of French officers, the party was taken to St. Maurice, a short distance outside Paris, where wounded are brought after the physical cares of surgery have been given, to be nursed into convalescence, diverted from the loss of limbs, and gradually educated into some new line which recreates them into useful members of society. St. Maurice is of vast dimensions, the buildings and grounds occupying an area probably greater than Central Park in New York. The buildings stretch as far as the eye can see; low, two-story stone structures, so that the cripples are not climbing long stairs, and are near the gardens, everywhere abundant with flowers and shrubbery, to lend cheer to the occupants.

Two hundred more wounded are coming," said an attendant, as the officer led the way into the first building, the receiving ward.

"Here they are," said the officer, pointing to 200 large photographic plates ranged and numbered in a case.

The photographs of the 200 wounded had been sent ahead, the plates showing with precision the exact wound and its process of healing, some of them being X-ray plates.

"See this one," said the officer, holding up a large glass plate showing the side-profile of a wounded soldier, with a gaping bullethole back of the ear, and around the hole little sutures or cracks of the skull.

"It is not a fractured skull—that would be hopeless," said the officer. "No, that man can be made over."

But this receiving ward was merely the first stage in a sort of ascending scale, which improved the wounded man's condition at each stage until he was finally landed in the school where he was made over into a condition more useful to himself and society than he was before. It was to this school that chief interest was directed.

This enormous school at St. Maurice is a hive of work shops of all kinds—shoe making shops, machine shops, auto repair shops, blacksmith shops with blazing forges and clothes making shops and the workmen were the wounded soldiers from the firing line, minus an arm, leg or eye on which they had before depended, but now launched on a new line which did not need that arm, leg or eye. As a whole, it was as efficient a body of workmen as one would find in any well regulated factory. The men had smiling faces; those working in groups were chatting and laughing.

Attention was also given to the fine arts and the professions and here also were schools for sculpture and painting and architecture, so that legless or armless or eyeless soldiers, who had a taste for the aesthetic could be led into some new line, which did not require the use of the lost member. One pale-faced young soldier, his left hand gone near the elbow, was delicately modeling a Venus of Milo with his remaining hand.

The soldier architects were making designs, with blue prints of girders, arches and columns, and calculating the strength of walls and roofs. All of these men had something missing, but their work was so chosen as to make absolutely negligible the lost member, and tot make what remained of their members entirely efficient for this particular work. Near the soldier architects were ranged two long lines of soldier typewriters, men who had lost a foot or some other member, but whose hands had now been taught a skill they had not known before in rapid typewriting.

In the shoe shop the men were turning out a good grade of shoes, selling for 23 francs (about $4.60); also wallets and purses of all kinds, leather watch chains and belts. A large glass case exhibited the diversity of their product. It was the same in the machine shop, the blacksmith shop and all theo ther branches of this hive of industry.

"One soldier with both hands gone," said the officer, "is making 18 francs a day as a carpenter."

He explained that special tools had been made for this handless carpenter, fitting on to the steel hooks on his arm-stumps. The plans, for instance automatically permitted the carpenter to do his work with precision, a bell ringing if pressure was to great to the right, another bell if pressure was too great on the left, and other bells of forward and rear pressure. So that the handless soldier carpenter learned his trade automatically, bells warning him of each false move until he had become expert.

The St. Maurice institution and school which is thus making soldiers over for a new and useful occupation has a capacity of 500 men, who have their wounds dressed so far as remains necessary, are houses and fed, and at the same time carry on these extensive shops which turn out useful products of all kinds, and what is more turn out useful men skilled in the arts, architecture, mechanical arts and the many branches of manufacture.

OLDEST HAMPTON GRADUATE

Booker Washington Memorial Services May Be Held at Institution.

Newport News, Va., Nov. 15.—Booker T. Washington, who died Sunday at Tuskegee, Ala., was hte oldest and most distinguished graduate of the Hampton Normal school, Hampton, Va., the officials of the school stated today, and memorial services probably will be held at the institution in honor of his memory.

Negro churches in Newport News, where Dr. Washington was well known, received the news of his death during the Sunday night service and resolutions of respect were adopted in several of them.

MUSICIAL NOVELTY IN GERMANY

Dr. Richard Strauss' "Alpine Symphony" Something Unique.

(Correspondence of Associated Press.)

Berlin, Nov. 15.—The musical novelty of the season in Germany is Dr. Richard Strauss' "Alpine Symphony," which was produced for the first time this week by the orchestra of the Royal Opera House at Dresden.

Among other things, the composer has introduced a thunder machine into his orchestra, which consists of 105 musicians "in sight" and 12 for supplementary noise-making behind the scenes. The sound of a waterfall is produced thematically by a blending of strings, harps, woods and the clang of the celesta combined with the tremolo of the triangle. In the sunrise theme, according to the Dresden newspapers, "the sun rises A, beams at noon in C and sets in G."

Besides the storm, the waterfall, and the sun, there are themes entitled: The Ascent; Entrance to the Forest; Ramble by the Brook; On the Glacier; Perilous Outlook; Calm Before the Storm; and Night Again.

WILL ASK FOR NEW TRIAL

Labor Federation to Petition in Behalf of Joseph Hillstrom

San Francisco, Cal., Nov. 15.—Action was taken by the American Federation of Labor today in the movement to obtain a new trial for Joseph Hillstrom, sentenced to be shot next Friday in Salt Lake Sity. Speakers who addressed the delegates declared that Hillstrom had not been given a fair trial.

President Gompers referred the matter to the ways and means committee which adopted a plan for appeal to President Wilson and the Governor of Utah to prevent the execution. Hillstrom, a member of the Industrial Workers of the World, was convicted of the murder of a Salt Lake grocer and his son.

TO COLLECT THE ACORNS.

School Children of Prussia to be Given a Vacation.

Berlin, Nov. 15.—The minister of education of Prussia has issued a decree, according to which the various school authorities are directed to give the pupils a vacation that they may systematically collect the beech nuts and acorns which now are falling, for the sake of the oil and fats they contain. The minister of agriculture has estimated that 400,000 tons of the former, and 100,000 tons of the latter will go to waste unless some definite steps are taken to gather them. From the components of the nuts, it has been found, a very acceptable table oil can be prepared which it is believed will go a long way tot relieve the present shortage in that commodity.

WILL ASK NO BELLIGERENT FOR IMMUNITY AS A FAVOR

Attitude of State Department Regarding American Ships.

Washington, Nov. 15.—The United States will ask no belligerent power to grant as a favor assurance of immunity from seizure for ships flying the American flag. This was made plain today by State Department officials in response to inquiries as to the department's attitude toward the request of the Atans-Atlantic steamship line that special representations be made to Great Britain in behalf of the steamer Winnebago, held up at Buenos Aires for fear that British cruisers might seize her on the ground of German ownership.

Officials said vessels entitled to fly the American flag would be protected in their rights without any advance arrangement for immunity from interference on the high seas.

NEW DIPLOMACY NECESSARY

Roosevelt Says His Views Agree With Former French Minister.

Paris, Nov. 15.—"My views are in entire agreement with yours as to the necessity of a new diplomacy as a result of this terrible war," says Theodore Roosevelt in a letter to Stephen Pichon, former foreign minister, as published today in the Petit Journal, but that diplomacy must be based on a new system of international governmental action, which in its terms must be built on greater solidarity of international opinion, at least so far as certain kinds of nations and international misdeeds are concerned.

Colonel Roosevelt is quote further as saying that a great nation worthy of the name must prepare itself so as to employ its power as an instrument of supreme justice and that he is attempting to induce the United States to put into action its intellectual and moral principles.

MRS. WILSON DIVORCED

Her Husband Was Formerly Assistant Secretary of State.

Reno, Nav., No. 15.—A decree of divorce on grounds of cruelty has been granted by the district court here to Lucy Wilson from Huntington Wilson. Wilson was assistant Secretary of State under Philander C. Knox, during the Taft administration. Mrs. Wilson was allowed to resume her maiden name, Lucy Wartham James.

New Orleans, Nov. 15.—The New Orleans, Texas & Mexico railroad, subsidiary of the St. Louis & San Francisco system, was sold at public auction here today by order of Judge Rufus Faster, of the Federal district court. The road was bought in for $6,000,000 by Walter L. Taylor, representing the bond holders of the road.

Cutting Down On Advertising Is False Economy

The merchant who wants to sustain his record of sales and exceed it knows that advertising will do it.

If you "draw in" on advertising, you are robbing Peter to pay Paul.

By the expenditure of a reasonable sum in the STAR you can bring into your store the new impetus of business from many families who otherwise don't see your advertising.

Ask the merchant who tried it.

LESS POLITICAL TALK THAN EVER HE THINKS

Chairman Warren Optimistic as to Democratic Outlook

Charters Issued—Reward Offered for Assassins of Sweatt—Raleigh Y. M. C. A. Canvass a Success —Better Mail Service.

(Special Star Correspondence.)

Raleigh, N. C., Nov. 15.—Democratic State Chairman T. D. Warren was here from Newbern and said that the situation throughout the State is especially promising from the Democratic viewpoint. He says there is not a bit of evidence anywhere in the State of activity on the part of the Republican State organization and that there are reports of dissention that may culminate in the dropping of Linney as Republican State chairman and the selection of a chairman more in line with progressive ideas.

Chairman Warren says there is less political talk of any sort in the State than he has ever known and that the increasingly good business conditions and the European war are getting the interest to the exclusion of politics.

Chairman Travis and Commissioner Lee, of the Corporation Commission, have gone to Yancey county to give a special hearing in the matter of an appeal to the commission in which it is alleged that the county authorities have made excessively high the tax assessment against the Highland Spruce Company, and Perley & Crockett, which are allied timber interests.

The various divisions of the State Department of Agriculture are getting in order their annual reports in preparation for the annual meeting of the State Board of Agriculture, on the first Wednesday in December, when the budget for the next six months' work of the department will be made up with apportionment to the several divisions.

A charter was issued today for the Whitmore Bakery Company, of Henderson, capital $10,000 authorized and $3,500 subscribed by R. F. Whitman and others.

Another charter was for the Williams Huffman Music Company, of Asheville, capital $10,000 authorized and $6,000 subscribed by H. O. Williams, J. P. Hoffman and others for operating a general music store.

Reward for Sweatt's Assassins.

Governor Craig offered a reward of $100 today for the unknown murderer of Floyd Sweatt, a well known and much esteemed farmer of Richmond county, who was shot from ambush near Hamlet November 8. The county of Richmond has already offered a similar reward. Chairman H. E. Gibbons wrote the Governor that the murder was a most dastardly one. Sweatt had been to Hamlet to sell a carload of wood and was returning to his home, four miles distant, at night when he was shot from ambush and instantly killed as he sat in his wagon. There is no intimation as to whether there has been found any clue to the assassin.

Commissioner of Insurance Jas. R. Young, of the North Carolina Department of Insurance, has gone to Knoxville, Tenn., to deliver an address Wednesday before the State convention of Tennessee insurance agents.

The Raleigh chamber of commerce is making a move in a novel direction in taking up with the Postoffice Department at Washington the matter of establishing special mail service between Raleigh and neighboring points through the medium of jitney lines that are already in operation, especially with Fuquay Springs, Wendell, Cary, Smithfield and other points.

Hubert Blake, who was brought last evening from Kinston to answer the charge of abandonment and of carrying away with him his wife's diamond ring, was able to give the $1,000 bond required this morning and was released from the city prison pending the hearing in the case, which will take place early this week.

Blake is a well known young man of this city, who has been operating an automobile for hire for some time and left Raleigh right after State fair week. He has a wife and little daughter and the charge is that he disappeared from Raleigh without making any provision for them or letting them know where he had gone.

Y. M. C. A. Rally a Success.

The Young Men's Christian Association management is still receiving voluntary subscriptions to the special fund that was wanted to reduce the $40,000 bonded debt and take care of a considerable floating debt that had accumulated and it looks now like the fund subscribed will be around $30,000. It was $27,759 Friday night when the active canvass by teams was closed and numbers of subscriptions have been tendered since. Dr. W. S. Rankin is president of the association and Albert L. Cox was chairman of the canvassing committee, which was divided into teams that did especially fine work.

The result of the canvass is that the association will at once be relieved of its floating debt, a considerable debt for accrued interest on the association debt and the bonded debt will be materially reduced.

Business organizations of Raleigh are considerably exercised over the developments in the negotiations for a "white way" for Raleigh on Martin and Fayetteville streets. The contract with the Carolina Power & Light Company, as submitted by the company includes an exemption from any requirement to give complete underground wire equipment on these streets during the ten years the contract would be in force.

SUPREME COURT UPHOLDS CAMPBELL IN MILEAGE CASE

May Not Be Forfeited When Presented By Original Purchaser.

Washington, Nov. 15 — A non-transferable railroad mileage book, sold under conditions that it would be forfeited if presented by any other than the original purchaser, may not be forfeited if presented by the purchaser himself for transportation of another person. The Supreme Court so held today in the case of Samuel J. Campbell, who presented to a Southern railway conductor two non-transferable mileage books for transportation for himself and wife from Greenville, S. C., to Greensboro, N. C. The conductor declared the book presented for the wife's transportation forfeited. Campbell recovered judgment of $37 against the railroad for the conductor's action.

"The forfeiture condition does not hit this case," said Justice Hughes. The action of the South Carolina courts in giving judgment and holding the railroad to the strict terms of the contract do not deny the railroad any federal right."

Priest Returns to His Church After Battle.

This striking photograph was taken in the Champagne country, after the greatest battle ever fought, a battle in which some 250,000 men were killed and wounded. The priest was driven out when shells burst over his head. He went back and the photographer caught him looking on his wrecked altar. The little church was not so famous as the cathedral at Rheims, which was bombarded, but it was just as dear to the pastor and his smaller flock.

EPISCOPAL PROVINCIAL SYNOD OF WASHINGTON TO CONVENE

Nearly 200 Delegates in Richmond for First Session Today.

Richmond, Va., Nov. 15.—Upwards of 200 delegates were here tonight to attend the first session of the Episcopal Provincial Synod of Washington, which begins tomorrow. The first day will be known as "Missionary Day"; the second as "Social Service Day" and the third and last as "Religious Education Day."

The Washington Province includes Pennsylvania, Delaware, Maryland, District of Columbia, Virginia and West Virginia, representing eleven dioceses.

The Rt. Rev. John Gardney Murray, bishop of Maryland and president of the Provincial Synod of Washington, will preside, and the synod will be open by celebration of the Holy Communion in St. James' Church. The Rt. Rev. Philip M. Rhinelander, bishop of Pennsylvania, will deliver the sermon.

STREET CARS FOR KINSTON

Street Railway Lines Now Being Discussed by Business Men.

Special Star Correspondence.)

Kinston, N. C., Nov. 15.—The Chamber of Commerce is expected to investigate the possibility for a good investment in a street railway system in Kinston during the coming few weeks. Last week's fair proved the need of such a service during rush periods. It is estimated that 100,000 fares would have been handled during the week. Lines down Queen street, into East Kinston and Mitchelltown, and to Hines' Junction, a mile and a half west of the city, might be profitably operated throughout the year, business men believe. The route to Hines' Junction would necessarily lead by the fair grounds. The chamber of commerce has created the fair, already a proven success, caused to be built a new railroad line, and accomplished numbers of other big things. If the street railway seems to that body to be an undertaking worth while, it will most likely be built.

GEORGIA LIQUOR LEGISLATION PROGRAMME NEARLY COMPLETED

Bills Passed Regulating Shipments and Preventing Advertising.

Atlanta, Ga., Nov. 15.—The liquor legislation programme of the majority of the Georgia general assembly neared completion late today when the house passed the senate bills regulating shipments and to prevent liquor advertising. The laws will be effective May 1, 1916. Among other things the new acts prohibited the manufacture or sale of any beverage containing more than one-half of one per cent. of alcohol.

The anti-shipping bill provides that a person may receive only two quarts of liquor, one gallon of wine and forty-eight pints of beer each month. This, it is claimed, will eliminate the locker clubs and the so-called near-beer saloons. The other measure passed today prevents the advertising of liquor in any manner, in periodicals, newspapers, bill boards ro otherwise. Governor Harris is expected to sign the bills.

OUT OF THE GLOOM

Many a Gloomy Countenance in Wilmington Now Lightens With Happiness.

A bad back makes you gloomy.
Can't be happy with continual backache.
The aches and pains of a bad back
Are frequently due to weak kidneys.
Doan's Kidney Pills are recommended for weak kidneys.
So Wilmington citizens testify.

W. G. A. Otersen, 710 N. Third St., Wilmington, says: "My back caused me a great deal of misery and it was almost impossible for me to walk. My kidneys got so weak that I could hardly control the kidney secretions, especially at night. I felt so tired when I got up in the morning that I could hardly drag myself around. The first box of Doan's Kidney Pills gave me relief and when I had finished three boxes my back was as sound as ever and my kidneys became normal. They haven't caused me any trouble now for a long time."

Price 50c, at all dealers. Don't simply ask for a kidney remedy — get Doan's Kidney Pills—the same that Mr. Otersen had. Foster-Milburn Co., Props., Buffalo, N. Y.

BLADENBORO TOWNSHIP VOTES FOR GOOD ROADS

$50,000 Order Placed for New Cotton Mill Machinery

Cotton Seed Oil Company Soon to Begin Erection of $50,000 Plant —Township to Issue $25,000 Road Bonds.

(Special Star Telegram.)

Bladenboro, N. C., Nov. 15.—At an election held here today Bladenboro township voted $25,000 for good roads by an overwhelming majority. The polling was very heavy, indicating that the people of "the banner township of Bladen county" are determined to forge ahead in every line of progress. H. C. Bridger, E. C. Hester and Evander Singletary were elected as a board of highway commissioners to have entire charge of the expenditure of the money and construction of roads.

Your correspondent was informed today by Mr. J. L. Bridger, general manager of Bladenboro Cotton Mills, that an order has just been placed for $50,000 worth of new improved machinery to be installed, in addition to their present plant, early in the next year. With this addition the Bladenboro Cotton Mills will be one of the largest and best equipped cotton mills of its kind in the State. The consumption will be approximately 12,000 bales per annum.

Also $50,000 Cotton Oil Plant.

The Bladen Manufacturing Company, which was organized sometime ago by H. C. Bridger, R. L. Bridger and others for the purpose of doing a general cottonseed oil business, will begin the erection of a $50,000 plant early in 1916. It is understood this plant will be run by electricity and will be strictly modern in every detail.

ENGINES FAIL TO REVERSE

Superdreadnaught Arkansas Loses an Anchor and Chain.

Old Point Comfort, Va., Nov. 15.—The failure of the engines of the superdreadnaught Arkansas to reverse caused the fighter to lose one of her anchors and 75 fathoms of chain today in Hampton Roads. She also barely escaped collision with the government wharf here before she could be stopped.

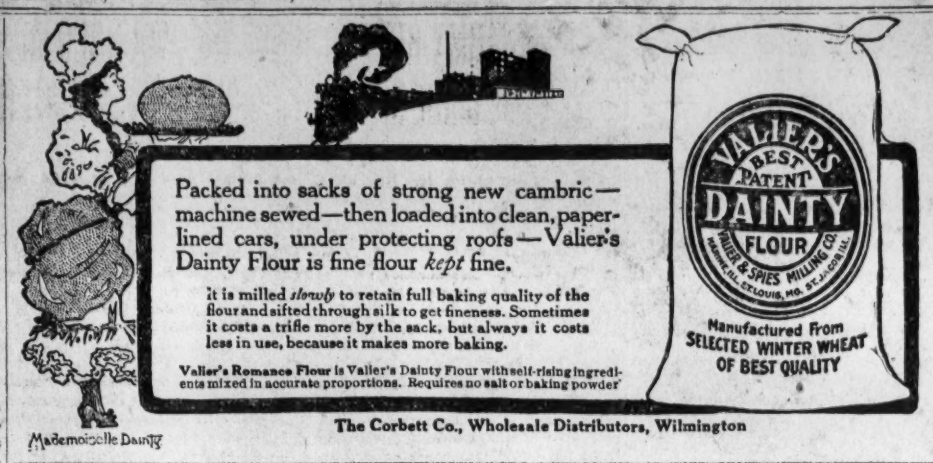
C., A. & W. MERGER RATIFIED BY SEABOARD STOCKHOLDERS

Also Confirm Issuance of $300,000,000 Mortgage Bonds.

Petersburg, Va., Nov. 15.—Stockholders of the Seaboard Air Line Railway, representing 483,519 shares, today ratified articles of agreement merging their road and the Carolina, Atlantic and Western Railway; also the issuance of mortgage bonds for $300,000,000 to be assumed by the consolidated company as part of the consolidation. The C., A. & W. stockholders already had ratified the merger.

Acquisition of the C., A. & W. adds 331 miles to the S. A. L. system which has under construction 85 miles of road between Charleston and Savannah.

New York, Nov. 15. —George J. Turner, of Baltimore, was elected president of the Amateur Athletic Union at the annual convention here today. He succeeds Alfred J. Lill, Jr., of Boston.



Packed into sacks of strong new cambric—machine sewed—then loaded into clean, paper-lined cars, under protecting roofs—Valier's Dainty Flour is fine flour *kept* fine.
it is milled *slowly* to retain full baking quality of the flour and sifted through silk to get fineness. Sometimes it costs a trifle more by the sack, but always it costs less in use, because it makes more baking.
Valier's Romance Flour is Valier's Dainty Flour with self-rising ingredients mixed in accurate proportions. Requires no salt or baking powder

THE WILMINGTON STAR CO.

TUESDAY, NOVEMBER 16, 1915.

TOP O' THE MORNING

Daniel "purposed in his heart that he would not defile himself." Daniel's purpose was fixed and unalterable. Carrying it out involved great daily sacrifice and great peril, but there Daniel stood, and God, of course, stood with him. —TORREY.

How can any old rounder expect a square deal?

Men should avoid getting stuck on their point of view.

Passion and prejudice are the allies which reason has to fight.

The Austrians seem to be good imitators or bad actors, is it?

"Mysterious ships seen in the Carribean. Probably same as seeing snakes.

Hope is a good thing to have but we have no hope of ever holding the world's altitude record.

When a man thinks he is right and does not know any better he will even bet you that he is right.

Some of the theories held concerning pellagra now will amuse the doctors of the future.

Oh, well, probably Colonel Bryan may be trying for the Nobel peace prize since the competitors are few.

Colonel Bryan thinks this country is committed to peace ideals. Judging from the way that most people talk they believe in peace but for themselves.

If it be true that "a gentleman is recognized by his get-up," what do you call men who never get up—when they see a woman standing up for a ride in a car?

Eleven European nations are engaged war and it is probable that two more will come in and make it thirteen, a sure sign of bad luck for either one side or the other.

The inactivity of the British, French and Italian navies is causing the the United States a lot of trouble. There does not seem to be any protection for Americans on foreign ships.

Circumstances altar cases, hence we should be guided by circumstances when we wish to view questions from the proper angle. Circumstances have made many a sensible man change his opinion.

A military writer says in a warning way: "A seperate peace would be fatal to Serbia." Probably Serbia wonders if it could possibly be more fatal than the military avalanche which is overwhelming her.

This country has doubled its trade with Latin American countries but that isn't saying much for it, owing to the fact that our trade with those countries is insignificant compared with their trade with the United States.

We don't know very much about Mr. Frank Parsons, but in an address before the Colorado Teachers' Association he said with reference to women's clothes: "The least decoration is the best taste in clothes; when in doubt, omit everything." That would be shocking.

We are gonna have a war of words over adequate preparedness. Some of its opponents call our little old defense plans militarism, but if they are in earnest about opposing national defense they ought not to make the world laugh by putting the whole new outfit in a class with militarism.

Yes, we remember Captain Hobson started it but he has had to live down several years of ridicule by newspapers which are now proclaiming Hobson's choice under another name. Hobson is not even displaying a puffed up feeling over his vindication. Those who would not be convinced by arguments have had to be brought to his view by circumstances.

THE CIVILIAN TRAINING CAMP.

According to a Washington special in yesterday's Star, North Carolina is to have a civilian training camp similar to that conducted at Plattsburg, N. Y., during the past summer. Senator Overman gets credit for inducing the Secretary of War to locate one of these camps somewhere in North Carolina, and in his Richmond speech a few days ago Major General Leonard Wood announced that Secretary of War Garrison had decided to comply with Senator Overman's request in this connection.

Wilmington patriots made the first efforts in behalf of a business men's training camp and it was believed that if one were secured for North Carolina Fort Caswell would be the place to have it. Asheville, however, has put in her oar and is pulling for it. The Secretary of the Asheville board of trade has written to the War Department presenting the advantages of Asheville for the camp. It is presumed that other places all will put in a claim, but if it is to be a military training camp, Wilmington, or rather Fort Caswell, is the logical place for it.

At Fort Caswell there are admirable drill grounds and there is a regular army post there, so the civilian militarists can rub elbows with the regulars and see real military work done in modern army fashion. There is plenty of good water at Fort Caswell and the sanitation is not a matter to be guessed at, since the sanitary regulations at the fort have been in the hands of regular army surgeons ofr many years. It is a healthful, delightful place for the camp, and besides the opportunity it affords for camping with the regulars, the coast artillery batteries are there for use by those who attend the camp.

Everybody will want to come to the seacoast next summer anyhow, so what's the use of thinking about any other place than Fort Caswell? If we are going to give military training to civilian Tar Heels, there is only one place in the State where regular soldiers can be used in the camp maneuvres, unless soldiers are sent to new drill grounds at great expense.

While the matter of accessibility to all parts of the State should be a minor consideration beside the far more important advantages mentioned, no other bidder for the training camp has anything on Wilmington in this respect. Wilmington, with railroad lines radiating in five direction, either leading to or making good connection with every quarter of the State, has both regular railroad and boat service between here and Southport and the fort.

THE MEMORIAL HOSPITAL ANNEX

Wilmington has been exceedingly fortunate in the several benefactions bestowed upon her, but none has been more intelligently conceived or more generously offered, than is that which comes with the proposition of Mr. and Mrs. James Sprunt to build and equip an annex to the James Walker Memorial Hospital, to be used for a maternity ward and as a hospital for infants and children. The annex will be a memorial to the deceased daughter of Mr. and Mrs. Sprunt and its sacredness will be perpetuated in the broad charity that will take humanity for its foundation. There could be no more tender memorial than one which will be devoted to scientic ministration to mothers and babes, and for that reason it will be a beneficence both sacred and lofty in its type.

In his communication to The Star with reference to the generosity of Mr. and Mrs. Sprunt, Dr. C. P. Bolles expressed professional appreciation of so noble and timely a public benefaction. He pointed out the need and utility of a hospital branch to care for expectant mothers and invalid children, and the facts he presented show how wisely considered was the purpose of Wilmington's liberal benefactor and benefactress. How timely such an institution is for our community, and how gratefully it will be appreciated by its beneficiaries and the public, words are not sufficiently infinite to say for the years and years that it will be a blessing to humanity.

The women's and children's annex will cost from $25,000 to $30,000 and it will be turned over to the hospital management completely furnished and equipped for the purpose for which it is intended. It comes from the heart and was inspired by a noble impulse directed in a channel thoughtfully and wisely and generously conceived.

A PERSONALLY CONDUCTED PARTY.

Next year will soon be here with its presidential campaign, and already the opposition to the Democracy in North Carolina is endeavoring to colect its scraps and get them together on general principles. The Republicans will make an effort to swallow the Bull Moosers, and next Thursday in Raleigh they will take the initiative for reconciliation. We can't predict how they will succeed at it, for we can't imagine, but the Raleigh News and Observer is on the ground and its idea is this:

"Appearances are now that the Republican executive committee when it meets in Raleigh next Thursday to lay plans to attack the Democracy, "the common enemy" of the hybrid conglomeration which has been called by Republican Chairman Linney to assemble, is to do some inside fighting to grab the chairmanship. So comes the story to us, the report being that there is to be an attempt to unhorse Chairman Frank Linney. According to the news heard by one time Lieutenant-Governor and one time Postmaster Reynolds, of Winston-Salem, there are letters being circulated by former Congressman Cowles and Solicitor Hayes which call upon the G. O. P. outfit to bounce Linney. Mr. Ex. Reynolds holds that Mr. Ex. Cowles is no Republican, that he drifted off in the Bull Moose pasture when it looked green and nifty, and that hence he should have no voice in such matters as a Republican chairman, that the selection should be the Old Guard job. There are others who now exhibit the Republican brand who think the old crowd is moribund and who want to make Linney walk the plank as its representative. And so the outlook is that we are to come to days when the Republicans of various shades and types will swat each other before they attempt to swat the Democracy. "On with the dance," and so forth."

The esteemed Raleigh paper diagnoses the premonitory symptoms of Republicanism as we have observed it in North Carolina for years. It is a personally conducted party and there is always a scrap as to which person shall get hold of the reins. The Republican masses probably don't know a thing about what the politicians are going to do, but they ought to notice that they appear to be reorganizing the party for themselves instead of for the people. Both cliques want to control or own the party and that is the best sign that they are not so much interested in the G. O. P. as they are in themselves.

They have a reason not to trust each other, and we have our serious doubts whether the people could possibly trust any of the old school fellows whose names spell mud anyhow. They have been weighed many a time and yet they insist on getting in the scales for another tilt.

OUR REGULAR GAIT

The esteemed New Bern Sun picked up a paragraphic ejaculation from The Star a few days ago and thereupon it observes:

"The Wilmington Star rushes forth and murmers the opinion that Eastern North Carolina is a wonderful region. Having been located in this immediate section for many moons the Star without doubt knows of what it is boasting and we feel sure that, now that they have found this to be true, they will assist in letting the remainder of the world know of it."

Bless you, The Star has been boasting and boosting from time immemorial. What we have said about the resources and adaptabilities of this incomparable region would fill Dr. Eliot's "seven-feet shelf of books." The Star has pioneered "The Nation's Garden Spot" and it has taken in every portion of Eastern North Carolina, which is the best state in the Union, including Western North Carolina. Besides the limitness resources and matchless advantages of North Carolina from the Atlantic to the Appalachians, it occupies the most enviable place on the map of the United States of America. Did you ever notice it?

WHO SAID WILMINGTON WAS NEUTRAL?

"Whoever said Wilmington was neutral, lied!" This is the gist of a retort made by one of Wilmington's most progressive citizens, in answer to a remark made by a reactionary citizen who asserted that "Wilmington was dead."

His language, to some, may appear strong, but it takes strength to express the truth sometimes.

Wilmington is not neutral—she may be from an international point of view, but she is far from neutral when this term is applied to her financial status, her enterprises, etc. No truth-loving individual could wander so far from the ideals he is supposed to cherish as to assert that Wilmington was inactive, flat or otherwise dead or neutral.

Wilmington is the scene of great developments, the results of which will make it an exposition of what can be accomplished in the way of city-building by a citizenchip of the finest metal. And we have a number of true-blue-steel citizens.

We have some of the finest streets in the country (a few bad ones, of course), and some of our buildings can well be classed pretentious.

Banks, the strongest and most reliable to be found anywhere; mercantile concerns transacting millions of dollars of business annually; manufacturing enterprises, while not altogether numerous, are of some merit and are paying healthy pay-rolls; and, besides, we have a reputation for exporting which is envied by cities of much larger proportions.

You hear some folks remark: "Money is scarce." Pray consider the fact that when "money is plentiful," it is not always the result of actual prosperity, but many times can be attributed to a lack of conservatism. "Conserve and preserve" seems to be the universally accepted principle of our business men today, and in that principle there is even more truth than poetry, due credit being given to the rhythm of the maxim.

"Dun's Review," the recognized financial organ of the country, in its last week's issue, presented a most optimistic summary of business conditions for the preceding week. The substance of this summary was not of unsound basis either, figures being quoted to bear this out; bank clearings reached a figure never before attained, gold imports were of unparalleled size, and standard stocks soared above the best prices previously quoted. Of course European war orders and payments for munitions exercise some influence over our markets, but the influence from this quarter does not appear as perceptible as heretofore, and we gainsay improved conditions thus announced are the result of an improvement in our own domestic relations.

Some will say, "This summary refers to the United States, and you can't summarize conditions and show where improved conditions of the country effect any improvement in my own section. An answer to this is easy, a refutation being gained simply by stating that "diseases are not contagious," which, you know, is a falsehood.

If you are hunting for local evidence, just look at the number of building permits granted during the past few weeks, then consider the increased activity in building material, which is anticipated by the advertisements for bids for the erection of a number of houses at Sunset Park; then see the handsome dwellings in course of construction at Wi-No-Ca Terrace, and if you still be of the doubting Thomas class, ask the wholesalers if there has not been an improvement in collections. And, if you be still unconvinced, there's the Custom House to be started in a few months and to cost upwards of $250,000, the new county High School to cost $60,000, besides others.

Real estate is again becoming active, more so of late than ofr some time past.

With continued good weather there is no reason in the world why this fall and winter should not excel all others in business. And, if business is good during this period, it will presage an era of prosperity, which will come to us as a reward for the patience and long suffering we have displayed in combatting the dull period, which, today, is a thing of the past. X. X. X.

CURRENT COMMENT.

Now comes Wilmington's week of delight in its corn and agricultural show. Luck to it. May the weather be just the kind wanted.—Raleigh News and Observer.

The governor of Missouri is to decorate as "king of Missouri corn growers" a farmer named Bruce, who managed to reap 114 bushels from one acre of ground. Pretty good, for Missouri; but an acre yield like that would no longer excite even comment in North Carolina.—Greensboro News.

Congressman Claude Kitchin, of North Carolina announces that he will oppose President Wilson's programme for national preparedness in his personal capacity, and the Charleston News and Courier remarks that some people after being born in North Carolina, never get over it.—New Orleans States.

The murder of the Hamlet minister who had the courage to cry out and spare not in the campaign against various forms of vice in his neighborhood has deeply stirred the state press. Expressions of horror and indignation come from all sides. But the pity of it is that stirring the state press doesn't go far toward stirring the officers of the law to apprehend the murderer.—Greensboro News.

Even a navy officer's sympathy ought to go out to Secretary Daniels. For the second time in two and a half years his complete newspaper plant, that of the Raleigh News and Observer, has been burned to the ground, involving this time a heavy loss above insurance. Presses, linotypes, hand type, everything else needed to produce a newspaper, have been lost, and he must begin from the ground up. It is a tribute to the popularity of Mr. Daniels and his newspaper that before the fire was fairly over "telegrams and letters from friends and subscribers all over the country poured into The News and Observer office," many of them containing offers to pay their subscriptions from two to five years in advance. Perhaps only newspaper men who have to deal with subscribers will realize what a great tribute to the newspaper and its editor this is, but our readers may take it on our assurance that no compliment could have been greater. Under the circumstances, Mr. Daniels, we feel sure, will for the second time give a life like representation of Phoenix. We are confirmed in this belief by the extraordinary fact that The Engineering Magazine, in its current issue, presents an actual rear admiral who dares to praise Secretary Daniels for the good work for the navy which he is doing.—New York Evening Post.

DUPLIN RECORD CHANGES HANDS

Warsaw Paper Purchased by Mr. L. R. Taylor, of Mount Olive.

(Special Star Correspondence.)

Warsaw, N. C., Nov. 15.—The owners of the Duplin Record, the progressive weekly newspaper, which has been published here for the past six months under the eucient management of Mr. J. J. Moore, have sold the paper to Mr. L. R. Taylor, of Mount Olive. Mr. Moore, who owned the paper jointly with Mr. J. T. Bland, of Burgaw, was also the editor, and has made many friends since coming to the city. The paper is in good shape financially, is on a paying basis, and has a good circulation, having recently closed a very successful subscription contest. It is understood that it will be published here as before, and much success is wished for its new owner.

COLDER WEATHER TODAY

Near Freezing Temperature in Parts of South Atlantic States.

Washington, Nov. 15. — High temperatures had turned into freezing weather in Oklahoma, western Texas and northwestern Arkansas today. It will be much colder in the South Atlantic States, with temperatures close to freezing tonight in the east Gulf States and theh igh altitudes of the South Atlantic States. Fair and cold weather is promised for Tuesday east of the Mississippi river. The first general rain of the month east of the Mississippi began Sunday and continued today in the Atlantic coast states.

FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whittaker, of this place, "with sick headache, and stomach trouble.

Ten years ago a friend told me to try Thedford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day. N. C. 128

MAYOR MOORE TO OPEN FAIR THIS MORNING

Third Annual Corn and Agricultural Show Begins.

Big Tents at Foot of Market Street Were Scenes of Intense Activity Yesterday—Thousands of Visitors Are Expected.

Mayor Parker Quince Moore, of Wilmington, will formally open the third annual Corn and Agricultural Show this morning with an address after the doors to the big tents which have been pitched at the foot of Market street open at 10 A. M. The tents were the scenes of intense activity yesterday. Hundreds of men and women were busily engaged in bringing order out of chaos in placing the many exhibits. Merchants, farmers and social and civic organizations vied with each other in the arrangements of artistic displays.

It was announced last night following a meeting of the Executive committee that the big show to which the entire city and all the surrounding section has been looking forward for many months will open its gates to the public this monring at 10 o'clock and it is expected that a big crowd will be on hand at this time. Mayor Moore will open the fair with an address of welcome to the assembled crowds within the big tent after the doors are opened and the enterprise will then be on in full swing.

The judges who have been selected will begin their work as early as possible today and when their work is done, the winning exhibits will be marked with blue and red ribbons and also with the names of exhibitors.

Mr. J. P. Herring, county farm demonstration agent, announced last night that the judges would meet at the tent at 9 o'clock this morning.

It was announced last night that the Atlantic Coast Line has given reduced rates as far as Mount Olive on the W. & W., to Chadbourn on the W. C. & A. and to Stedman on the A. & Y.

Thousands of flags of many nations, predominant among which is Old Glory, lend an air of patriotism about the place that is indicative of the unselfish service. That there will be thousands of people here is assured and there is every indication that the fair will be the biggest event of its kind ever shown in Wilmington. Reduced rates have been given by both the Atlantic Coast Line and the Seaboard Air Line and many will come from a distance to see the Fair.

In the big tent on Market street there is a surprising array of exhibits of all kinds. In this tent is to be seen the Country Store, the booths of North Carolina Sorosis, the Chamber of Commerce, the United Farm Women of Wrightsboro, and other civic organizations and also many individual exhibits.

In one of the other tents are to be shown live stock exhibits, while the third will be devoted to an automobile display and exhibits of "Made in Wilmington" articles.

Mr. Thos. R. Ames, chairman of the Corn Show executive committee, states that everything will be in readiness for the opening today. There are no special programmes today. Music will be rendered at the tent each day from 1 to 7 o'clock by the Hanover Concert Band and from 7 to 10 o'clock by the High School Orchestra. Friday evening from 8 to 10 o'clock, Mrs. Luck's orchestra, composed of herself and daughters, will render a programme at the Corn Show. Mrs. Luck has made herself a great reputation by playing at various summer and winter resorts from Maine to Florida.

The "Made in Wilmington" parade on Wednesday promises to be one of the biggest events of the week. Mr. Ames, chief marshal of the parade, requests that all floats be at Twelfth and Market streets at 10 o'clock and the members of the Rotary Club meet at MacMillan's garage on North Second street at the same hour.

Lecture on Dairying.

Through the efforts of Dr. Thomas B. Carroll, meat and milk inspector for New Hanover county, Mr. L. B. Cook, of the dairy division, bureau of animal industry, Department of Agriculture, Washington, D. C., has been secured to deliver an address here during Corn Show Week. This address will be delivered at the Victoria Theatre Thursday night at 8 o'clock, and will be on the subject of milk and milk production.

The address will be free of charge and the people of Wilmington and visitors here for the Corn Show are urged and invited to attend. Personal invitations have also been extended to the local dairymen to attend the lecture and to urge their employes to do so.

Mr. Cook will discuss his subject from the practical standpoint, and his remarks will be of interest not only to dairymen, but to consumers as well, as he will tell of the proper methods of handling milk in the home. He will also tell something of the proper way of handling milk on the small farm, where one or more cows are kept to supply the family needs.

The subject of milk production and milk handling is one that has been given much study in recent years, and since milk is one of the most widely used of all food products, comes nearer being an all round food than any other product and is the most easily contaminated of all the food products, Mr. Cook's address promises to be one of the most interesting and instructive features of Corn Show week, and it is expected that he will be heard by a large audience.

Mr. Cook will arrive in the city Thursday morning and will spend the afternoon visiting the New Hanover county dairies with Dr. Carroll.

MILITARY TRAINING CAMP

Major Wood Said Would Serve Carolinas and Virginia—Not Near City.

The proposed military camp for this section, according to reported statements of Major General Leonard Wood, commander of the Department of the East, in Richmond last week, will be located in such a place as will be most accessible to North and South Carolina and Virginia, and not located near a city.

The camp will be something like the military camp conducted the past year at Plattsburg, N. Y., and will be expected to serve this section of the country by training Carolina and Virginia men in military tactics and practices. Wilmington has been making a bid for it, but the chances she has are unknown. It is said that a number of Wilmington people will attend the camp, no matter where located.

COMMITTEE DOES NOT HAVE PUBLIC MEETING

Dr. Nesbitt, County Health Officer, Submits His Statement

Copies Are Furnished Messrs. W. E. Merritt and A. W. Branch, of W. & S. Department—Council to Consider.

The special committee of City Council composed of Councilmen Jones, Hall and McCaig, which was appointed some time ago to make an investigation of the Water and Sewerage Department with a view to improving its efficiency, held a meeting last night for the purpose of hearing the complaint of Dr. Chas. T. Nesbitt, county health officer, relative to his inability to secure co-operation from the employes of the department as stated in his report to the Board of Health at its last monthly meeting.

The meeting had been advertised as being public and there were a half hundred or more people present including representatives of the press. However, upon objection being made by ex-Judge E. K. Bryan and L. Clayton Grant, Esq., who appeared in behalf of Mr. W. E. Merritt, superintendent of Water and Sewerage, and Mr. A. W. Branch, assistant superintendent of sewerage, it was decided not to have a public meeting until an opportunity could be had by the committee to go into the matter informally. Dr. Nesbitt outlined his complaints as to the conduct of the department in detail in a paper which he had prepared and it was decided by the committee that a copy of his statements should be furnished to Messrs. Merritt and Branch and that they should be given time in which to file their answers These will be considered by Council as a whole, probably at a public meeting.

The meeting was called to order at 8 p. m. by Councilman Jones, chairman of the committee, who stated that some reference to the purpose of the meeting might be of interest to those present who had not kept up with the committee's investigations. About two months ago at his request, Council appointed a committee to investigate the Water and Sewerage Department, he stated, and the committee went through the department as thoroughly as it was possible for laymen to do.

"We found some changes and improvements which seemed urgent," he said, "and these changes have either been made or are in process of completion. The committee failed to find any evidence of neglect in the part of employes, but, in order to leave nothing undone, called a special meeting, to which the public and especially everyone with complaint to make, were invited."

No one, however, appeared to complain, he stated, and the committee felt that their work was completed. However, at a recent meeting of the Board of Health, the county health officer reported that he had been unable to secure co-operation from the employes of the department, he stated, and the committee then extended Dr. Nesbitt an invitation to this meeting to present the facts upon which his report was grounded. Mr. Jones stated that the scope and extent of this investigation would be limited to the objections made by Dr. Nesbitt.

"As the investigation is directed to the department assigned to me," Councilman Jones stated, "I feel that some other member of the committee should take charge of the proceedings and I ask that Councilman McCaig take the chair."

Councilman McCaig then took charge of the meeting and L. Clayton Grant, Esq., was the first to be heard. He stated that he appeared before the committee at the request of Mr. Branch, assistant superintendent of sewerage, and he asked that if there were any charges to be preferred by Dr. Nesbitt that they should be put in writing and in specific form and an opportunity be given those against whom they were made to prepare their answers before being brought before the public.

Ex-Judge E. K. Bryan was the next to be heard. He stated that he appeared before the committee at the request of Mr. Merritt, superintendent of water and sewerage. If there are any charges to be made, he declared, they should be made specific, in writing, segregated one from the others and after they are presented an opportunity given to those against whom they were made to present their evidence in reply. This is the course pursued in all courts of justice, he stated, and it was only fair that the same should be done by the committee.

Dr. Nesbitt stated that what he had to say was not in the nature of a charge against any man. He did not feel any animosity towards anyone but his work was not proceeding as it should because two of the biggest parts of the municipality are not working in co-operation.

Councilman McCaig stated that those who had spoken were greatly mistaken, if they entertained the opinion that charges against any employe of the department were to be discussed. He called attention to the fact that the committee was simply appointed by Council to gather information and upon this to make such recommendations as were considered wise. If it should be found from the information received that charges should be made, then the committee could recommend such a course and if not, then to the contrary.

Ex-Judge Bryan stated that the committee had that right but he took it that before hearing any charges as to dereliction of duty that the opportunity would be given for an answer to be made.

Dr. Nesbitt stated that he had no desire to take advantage of anyone and while he was not making any charges against anyone, there might be statements made by him which could be construed as charges.

Mr. Grant suggested that Dr. Nesbitt file his statements which were in written form with the committee and if it should warrant a public investigation then have one called and Dr. Nesbitt could attend.

Ex-Judge Bryan thought it was a matter in which the committee should go slow.

Councilman McCaig then stated that all those present with the exception of employes of the Department of Water and Sewerage and of the Health Department might leave the room and there was a general exodus. Then followed the reading of Dr. Nesbitt's statements with reference to his failure to secure co-operation and the decision of the committee to wait until Messrs. Branch and Merritt could make answer before taking the matter up with Council.

ELECTION CASES MAY BE TAKEN UP TODAY

Trial of Negro on Homicide Charge Set for Wednesday

No Other Cases on Superior Court Docket For This Term—Judge Daniels Send Two Negroes to Roads.

With the exception of the six election cases against city officials and former city officials, which Solicitor Lyon announced yesterday would come up today, and the trial of Tom Merrick, colored, charged with the killing of Mr. L. B. Hudson, which has been set for trial Wednesday, there are no other cases on the criminal docket to be tried at this term of Superior Court, which convened yesterday morning with Judge Daniels, of Goldsboro, presiding. The court is scheduled to be in session for a week but it may be possible to complete the calendar before Saturday.

Ed Southerland and John Jones, both colored, entered a plea of guilty to breaking into and robbing Mr. John A. Biddle's store in Federal Point township several weeks ago. They had a hearing about a week ago before Justice Harriss, who found probable cause and sent the cases over to Superior Court. They were also convicted of having stolen merchandise from the store of J. H. Rehder & Co., in Wilmington, and each was given six months additional on the county roads. They were charged in the latter case with shoplifting. W. H. Mills, colored, who was with them when the alleged larcency occurred, was found not guilty and was discharged. The negroes had preliminary hearings before Justice Harriss in the larceny cases also.

Mary Clemmons, colored, entered a plea of guilty on a charge of perjury and was sent to the farm for six months. The charge was in connection with a warrant which the negro woman swore out against another negro in which she charged her with selling whiskey.

The court ordered that an alias caplas be issued for Plummer Gilbert, the young white man, who is charged with being implicated in the robbery of the store of C. W. Polvogt & Co. several months ago. Gilbert was out on bond in the sum of $1,000 and failed to appear when called at the last term. It was stated yesterday that bond which was given by his brother, Mr. C. D. Gilbert, had not yet been paid.

Clarence Hewlett, another young white man, charged also with being implicated in the robbery of the C. W. Polvogt store, was called yesterday and failed to appear. His cash bond of $200 was ordered to be forfeited.

Tom Hardwick, colored, charged with the larceny of $120 from another negro, was called yesterday and failed to show up. However, it was stated later that he is employed in the city and would be present for trial today.

A nol pros with leave was taken by the State in the case against Arthur Hewlett, charged with seduction.

Solicitor Homer Lyon is being assisted in the prosecution for the State by County Solicitor George Peschau. Solicitor Lyon stated yesterday morning that the State will be ready to try the election cases against the city officials and former city officials at this term. These cases are for alleged violation of election laws. True bills were returned by the last grand jury but no capiases have ever been issued and those against whom the indictments have been made are in somewhat of a quandary to know whether or not they should employ counsel.

The Grand Jury.

Judge Frank Daniels made an able charge to the grand jury yesterday morning in which he spoke in the highest praise of the citizenship of Wilmington. He had been greatly pleased, he stated, to note the changed conditions in the city. He remembered the time when Wilmington was looked upon as about the worst town in the State, he said, but now it has the reputation as being probably the most law-abiding community in North Carolina.

Judge Daniels first called attention to the type of men who are permitted to serve on the grand jury. They must be law abiding citizens, men of intelligence and persons of good moral character. He paid a tribute to the country in which we live, declaring that there is no other that is as free and as glorious.

He called attention to the excellent school system, the splendid churches and foremost of all the high type of energetic citizens that Wilmington has.

He pointed out to the jurors the vices which he declared are responsible for nearly all the crimes, naming first and foremost the liquor traffic, about which he spoke at considerable length. He spoke also of the houses of ill fame, the gambling evil and cigarette smoking.

The court instructed the jurors to make an investigation of the county offices, the county institutions and the county roads. He also asked the jury to look into the spitting that he had noticed in the Court House.

Judge Daniels was heard with the closest attention not only by the jurors but also by a large audience in the court room.

The following compose the grand jury: W. J. Toomer, foreman; C. F. Williams, John Wannamaker, H. R. Smith, J. N. Sweeney, R. E. Owen, C. C. Mattox, Raymond Sidbury, P. L. Page, E. P. Schulken, L. C. Craig, D. F. Toler, O. K. Woodcock, C. E. Morton, J. S. Parker, J. A. Munn, H. F. Otten, Henry Sherman. Mr. Fred T. Skipper, formerly clerk of the Recorder's court and at one time a member of the police force, is the officer in charge of the grand jury.

The following were excused from jury duty this week by the court: E. H. Munson, S. G. MacMillan, R. F. McCorkle, J. Q. Swann. E. A. Gainey was excused because of his removal to Brunswick county, where he now resides.

Baltimore, Nov. 15.—As a result of the fog last night, the British steamer Boveric, from Huelva, Spain, ran aground in the channel leading to this port, but floated at the rise of the tide and proceeded unassisted to port.

OPEN SEASON FOR HUNTING

Plenty of Game Reported and Prospects For Good Sport are Splendid—Weather Unfavorable.

Yesterday marked the opening of the hunting season for quail, squirrel and dove in New Hanover county, and as the law on deer, wild turkey, woodcock and wild fowl, or ducks and geese, opened November 1st, it is lawful now to kill any of the above mentioned game. The open season on wildfowl is regulated by Federal law, and will continue until February 1st, while the open season on squirrel, quail and other game continues until February 15th.

On account of the high winds of yesterday, many of the hunters who were counting on spending the opening day afield were disappointed, but they will be out to try their luck as soon as conditions are favorable to hunting. The law on quail and other game has been off since November 1st in some of the nearby counties, and many of the hunters have already tried the sport in these counties. While game is reported plentiful, the weather for the most part has been too warm for good hunting. However, some fair bags are reported by local sportsmen.

Deer and turkeys are reported plentiful this season, and already several Wilmingtonians have bagged one or more wild turkeys. Several nice deer have been seen on the local markets, too.

While ducks of some varieties have been plentiful since the opening season, the warm weather has kept the sportsmen from hunting them to any great extent. With the promised cold spell now on the way, additonal flocks will come South, and the local duck hunters expect some fine sport between now and February 1st.

WANT FLAG DAY OBSERVED

American Defense Society Requests Mayor Moore's Co-operation.

Monday, December 6, the opening day of Congress, has been named by the defense society as "defense day" throughout the United States, as the most timely occasion for holding mass meetings and addressing letters and telegrams to Congress on behalf of better national defense.

In order to make the occasion an impressive one, the American Defense Society has requested the co-operation of the mayors of the various cities including Mayor Moore, of Wilmington, asking that they designate the day as Flag Day. On this day all citizens who are in favor of a greater national defense are urgently requested to show such belief by hanging out flags at every house.

At the same time the American Defense Society is distributing a card appeal to be signed by voters and sent to their respective Congressmen and Senators, urging action at the next session of Congress in favor of adequate national defense.

MORE ROBBERIES REPORTED

Dr. Carson's Office Broken Into and Checks Taken Out.

Report was made to the police yesterday that some one entered the office of Dr. M. J. Carson, in the Southern building, Sunday night and secured two checks and 50 cents' worth of stamps. One of the checks was for $4 on a bank of Winston, made by A. A. Boyce, and the other was for $2 on a bank at Mount Olive, signed by J. A. Griffith. The thief used an instrument with which he prized the desk open.

Report was also made that a freight car was opened at the A. C. L. yards and five Harrington&Richardson shotguns were taken. The thieves have as yet not been apprehended. ... .

Corn and Automobiles.

Corn, hay and other farm products are woven into a handsome window display at MacMillan's garage, on Second street, this being in honor of the Corn Show this week. The window is made to represent a farmyard scene with the haymow, hen's nest and other accompaniments, while the tires and auto accessories of the firm are brought into prominence in the general idea. The work was the execution of Mr. LeRoy Marshburn, of the garage force.

Everyone Should Drink Hot Water in the Morning

Wash away all the stomach, liver, and bowel poisons before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician.

To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach.

Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless, except a sourish twinge which is not unpleasant. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation.

To feel like young folks feel; like you felt before your blood, nerves and muscles became saturated with an accumulation of body poisons, begin this treatment and above all, keep it up! As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

Masonic Temple, Nov. 16th, 1915.
WILMINGTON LODGE, NO. 319, A. F. & A. M.
Regular monthly communication this, Tuesday, evening at 8 o'clock.
You are urged to be present.

Will You Suceeed or Fail?

YOUTH, A MISTAKE; MANHOOD, A STRUGGLE; OLD AGE, A REGRET!

How many lives can be summed up in those ten words? How many failures can be traced to the mistakes of those who neglected to save money in youth, to meet the added responsibilities of manhood and the burdens of old age?

Begin saving right now. Place yourself beyond the reach of the fearful uncertainties that menace the future of the thriftless.

You can start an account at this bank with $1.00 or more.

BUSINESS BOYS' LEAGUE

Two Interesting Games of Basket Ball at Y. M. C. A.

There were two interesting games of basketball last night at the Y. M. C. A. between the teams of the Business Boys' League. The first and best game was between the Bankers and the Lawyers, the score being 11 to 5 in favor of the Bankers. The second game between the Merchants and the Manufacturers, resulted in a score of 5 to 3 in favor of the Merchants.

The first game was a fast one, the Bankers were a little weak because McCraw, the star guard, was out on account of a bad foot. The line-up was as follows: Lawyers, Thigpen, Pittman and LeGwin, guards; Rich, center; Vollers and C. King, forwards; Bankers, Hommand, Morse and Huband, guards; McKeithan, center; Sneeden and Thompson, forwards. LeGwin and Huband were subs for Pittman and Morse.

EVERY THREE MINUTES ONE DIES IN THE U. S.

The Anti-Tuberculosis Society illustrates the frightful toll of consumption by extinguishing a light every three minutes, and shows that it is the man or woman, girl or boy, who neglects colds, whose blood is impure, who feels weak and languid, who is the very one to contract tuberculosis—and none are immune.

During changing seasons, or after sickness, blood-quality is most important, and if you and your family will take Scott's Emulsion after meals it will charge your blood with health-sustaining richness, quicken circulation, and strengthen both lungs and throat.

Scott's is free from alcohol—easy to take—it cannot harm. Get a bottle to-day.

ORGANIZE COLLEGE CHAPTER AT FLORA McDONALD COLLEGE

Mrs. W. M. Creasy, recording secretary of the State United Daughters of the Confederacy, will go to Red Springs Wednesday to assist Mrs. Eugene Little, of Wadesboro, president of the State division, in the organization of the first college chapter of the U. D. C. at the Flora McDonald College. It is expected that other chapters will be organized in other women's colleges in the State.

Mrs. Creasy will go from Red Springs to Fayetteville to attend the formal opening of the home for Confederate women which has been provided by the State.

General James I. Metts, commander of the State division of United Confederate Veterans, has been invited to attend the opening and it is probable that he will do so. It is also likely that several other veterans will attend.

CORN SHOW BAKERY SHOP SENDS OUT ITS LAST CALL.

Don't forget to have all your cakes and breads in by noon today. It is hoped that the housewives will send in a big contribution and help to make the Corn Show a success. All who have promised to contribute, will be expected to send in their articles not later than 1 o'clock today, and those who have not decided, will remember that this is the last chance to enter the contests.

The beautiful prizes on display at Honnet's window are as follows: For the best pound cake, a silver cake knife; best layer cake, silver casserole; loaf bread, silver toast rack; pan rolls, silver casserole; beaten biscuit, silver cake knife. The girls' prizes are as follows: Best dozen crullers, pair of gold lingerie clasps; best dozen cookies, pair of gold lingerie clasps.

This is the last call to arms to the housewives of Wilmington and it is the hope of those in charge that all will have civic pride enough to rally to make the Corn Show a success. This does not specially benefit any organization, but is for a bigger and better Wilmington.

PERSONAL PARAGRAPHS.

—Judge F. A. Daniels, of Goldsboro, presiding at the present term of criminal court, is a guest at The Orton.

—Mr. J. H. Stone, who has been in Lynchburg, Va., at the bedside of his brother, Mr. C. C. Stone, who is very ill there, returned to the city yesterday.

—The following North Carolinians are registered at The Orton: A. F. Clark, Bolton; R. K. Craven, Abbotsburg; Frank D. Perry, Newbern; Dan Hester, Whiteville; J. A. Brown, Chadbourn; Jackson Greer, Whiteville; Fred Anderson, Maxton; H. T. Fisher, Fayetteville; J. B. Clark, Elizabethtown; S. Mitchell, Whiteville; Donald McCracken and H. L. Lyon, Whiteville; J. O. German, Boardman; A. H. Simon, Catherine Lake; C. A. Chubb, Wilard; R. D. Johnson and A. F. Woodward, Warsaw.

LOCAL DOTS.

—There were six new students enrolled last night at the William Hooper school. The moonlight schools are growing rapidly and doing a great work.

—The Auto Transit Company, operating a jitney service in the city, has decided to extend the service from 7:30 p. m., the present closing time, to 11:20 p. m. on all week nights, the Sunday hours to remain the same as at present.

—With a favorable wind and current, Mr. W. R. Savage, Mr. Henry Sherman and some friends, made the trip down the Cape Fear to Southport in Mr. Sehrman's launch Sunday in an hour and a half, which is said to be the best time ever made on water between the two places.

BIG N. C. R. CONVENTION

Prosperity Parade Through Dayton Was Closing Feature of Meeting.

Mr. R. T. Parsons, representative of the National Cash Register Company in Wilmington and surrounding terrtory, was one of the speakers at the big convention of more than 800 representatives of this corporation which was held last week in Dayton, Ohio, closing Wednesday night.

Dayton is the headquarters of this big concern and the city looks with great pride upon the splendid advertising which it receives from this source, the National Cash Register Company being one of the really big concerns in this country. The Dayton Journal in its issue of Thursday gives a detailed account of the convention, one of the big features of which was a parade of the salesman through the streets of Dayton with flags flying and bands playing. The procession was headed by President John H. Patterson, of the company, and his staff. The following is from the Dayton Journal:

"The 800 visiting salesmen were in the place of honor in white duck trousers and white hats. In themselves they made an impressive showing, but behind them came a brigade of N. C. R. men and women that took the vast crowd of spectators off their feet. They marched down not in hundreds, but by the thousands, all in uniform and marching in perfect step with the martial music that headed each division.

"The final climax came when the visiting salesmen marched through a solid double line a mile long, composing the working forces in every division of the factory. It was the final farewell and goodbye greeting of the industrial army at home to the field army of salesmen going to the firing line.

"The parade was the climax, and was held in celebration of the three-day convention of the American selling force of the National Cash Register company. Eight hundred N. C. R. salesmen, representing every city in the United States and Canada, convened here Monday to discuss new selling methods by which they can be of greater service to the merchants. Daily meetings were held in the N. C. R. Hall of Industrial Education."

NEW STEAMER AT B. & C.

Elizabeth Weems Takes Place of Henry Williams—Capt. Hudgins.

The Baltimore & Carolina Steamship Company has put on the steamer Elizabeth Weems to take the place of the Henry Williams, that was sold to a few weeks ago to the Vacuum Oil Company, of New York.

The Elizabeth Weems was bought from a Norwegian company and has been completely rebuilt, remodeled and renovated. The ship was bought for this line and Captain L. G. Hudgins had been appointed captain before the repairs were made, and many of the details of the rebuilding were handled under his direction. It has a complete electric lighting outfit, from the top of the deck to the extremities of the cargo spaces and the chart and pilot room are modern. It also has a modern water and sewerage plant and is all around a complete modern vessel. The tonnage is 11,000 tons and it runs on freight speed.

Captain Hudgins is well known in Wilmington, having been captain of the Henry Williams, which was sold just before this new craft was bought. It will be interesting to note that the Berkshire, the steamer that supplied the trade in this city since the Henry Williams was sold, is the steamer on which Captain Hudgins first went to sea. He was captain of the Henry Williams for several years and is now back on the same line on which he made the Henry Williams an important vessel. The Elizabeth Weems sailed last night for Georgetown and Charleston, and will be in Wilmington going North Friday or Saturday.

The Baltimore & Carolina Company are going to increase their fleet next spring when the new steamer, now under construction at Wilmington, Delaware, is completed. This steamer is not yet christened, but it will be the biggest steamer on this line next year when it is put on.

Fennell's Window Display.

Of the number of attractive window displays in Wilmington just now for the corn show, Mr. H. L. Fennell, the Franklin and Overland dealer, No. 111 Chestnut street, has one of the most attractive. The display consists largely of the automobile specialists of the Standard Oil Company and of the other standard accessories and supplies carried regularly in stock by Mr. Fennell. Motorists visiting the fair are invited to make Mr. Fennell's place their headquarters.

Oh No, Not Coney Island, but Palm Beach.

As You Must Look on Florida Sands.

Here's milady of Palm Beach. She will be down there by the thousand within a few months. In the meantime she is getting ready her costumes. This is one of them. Of course, it costs some money, but very few except those who have much money and time go to Palm Beach in the winter.

This dainty little confection—that's what is the high-class dressmakers call it—is really modest. There will be some at Palm Beach unlike it in many ways. If you want to make this one just listen to the fashion expert:

"It is fashioned like a little girl's puffed sleeves, and full gathered skirt. This suit is of gray salt water satin and has a high collar fastened with pearl buttons. The cap is trimmed with green and white striped satin."

WILL FORM STOCK COMPANY

Baseball Fans Held Meeting Last Night —Will Push Proposition for Entering Virginia League.

Another meeting of the baseball fans of Wilmington was held last night at the Court House and it was decided to organize a stock company with a capital of $5,000 for the purpose of securing a berth in the Virginia baseball league. Unfortunately there was not a large attendance although many Wilmingtonians have expressed a desire to have real league baseball next year. The proposition was discussed thoroughly and a committee was appointed to call on several prominent business men in the city with a view to securing their active cooperation in organizing a stock company.

A canvass of those present last night resulted in securing subscriptions for stock to the amount of $700. With this start already made, it is believed that it will be an easy matter to secure $5,000 for a company.

Another meeting of the fans will be held tomorrow night at 8 o'clock for the purpose of perfecting plans for securing the franchise that Petersdropped. There will be a meeting of the directors of the Virginia League at Norfolk, Va., on Thursday and what Wilmington decides to do must be known by that time. A determined effort will be made to have everything ready for making a request for a franchise then. It is proposed to issue stock for $5 a share.

Petitions will be left today att he following places: Mission Pharmacy, Baster's, Wilmington Cigar Company, Starkey's, Warren's Cigar Store, Gieschen Bros., Shepard's. The committee appointed last night will also call on a number of Wilmington citizens and it is hoped that all interested will show their interest by calling at one of the places named and subscribe for several shares of stock.

SHIPPERS' FORECAST

Warning to Protect North Shipments Against Lower Temperatures

Because of the indications of much colder weather the local weather bureau yesterday issued a forecast warning shippers to protect thirty-six hour shipments north against much lower temperatures. The forecast read:

"Protect thirty-six hour shipments north against temperatures of about 20 25 degrees."

How You Can Have "Naturally Curly" Hair

If you will forswear the curling iron and follow the simple plan here suggested, you will be surprised beyond words to see not only the beautiful curl but the soft fluffiness and lively lustre your hair will acquire. The plan—merely to apply to the hair before retiring a little pure silmerine (in liquid form), using a clean tooth brush for the purpose. The most effective way is to divide the hair into strands, moistening each of them separately from root to tip.

The delightful wavy effect in evidence in the morning will suggest to any stranger that your hair is "naturally curly." The effect will last a considerable time and if you'll get a few ounces of liquid silmerine from your druggist you will have a supply for months. This, by the way, will leave no sticky or greasy trace and cannot harm hair or scalp in any way. The hair will be quite manageable at all times, no matter how you do it up.

Perfect Bread
LARABEE'S
BEST
FLOUR

The World's Finest Flour Will Answer Every Purpose

The Flour contained in the bag under Larabee's Best Brand is milled and packed to stand at the head of all wheat flours. We mean by this that we claim that Larabee is not excelled.

The "Mills of Larabee" are situated in the center of the real wheat belt of the world, where it is also conceded that the finest quality of wheat is grown. The wheat that grows more prolific, that grows under the finest conditions, in the most fertile country of our land is milled in probably the most modern mill in existence. Packed with an individual guarantee on every bag to be the kind of flour that will please you. Flour made from Kansas Wheat has more strength, taste, yield, color, expansion (rise).

Are these qualities—in your bread—not worth more to you, Mrs. Housewife?

Ask your grocer about the best flour he has.

PYTHIANS RETURN TO CITY

Held a Conference and Decided to Employ a G. C. Assistant.

In an effort to advance the work of Pythianism in North Carolina a conference, which has just closed at Goldsboro, was held Saturday and an assistant Grand Chancellor will be appointed as a result, to assist Grand Chancellor J. G. Baird, of Charlotte, in this important work.

Among the Pythians from this community attending were Capt. Thomas D. Meares, editor of the Carolina Pythian and Supreme Master of Exchequer of the Supreme Lodge; Col. Walker Taylor, Past Grand Chancellor; Mr. G. Herbert Smith, member of the board of trustees of the Pythian Orphanage, and Mr. J. W. Smith, an ardent Pythian.

The conference was called by Grand Chancellor J. G. Baird, of Charlotte. In attendance besides the Grand Chancellor and the Wilmington Pythians were: Mr. A. H. Holland, of Winston-Salem, Grand Vice Chancellor, Mr W. C. Crist, of Winston-Salem, Past Grand Chancellor; Mr. C. C. McLean, of Greensboro, Grand Past Chancellor; Mr. W. T. Hollowell, Goldsboro, Grand Keeper of Records and Seal; Mr. J. H. Hollman, of Statesville, chairman of the finance committee, and Mr. Charles Dewey, of Goldsboro.

AUTO AND BICYCLE IN COLLISION

Mr. C. H. Crockett Painfully Bruised—Mr. Lee Arrested.

Mr. C. H. Crockett, paper hanger and decorator, No. 25 North Second street, was knocked down and severely bruised, his clothing torn and the rear wheel of his bicycle smashed, when he was in collision with a Ford automobile driven by Mr. Fitz Lee, a gentleman from out of the city, at Second and Princess streets, yesterday afternoon about 4:30 o'clock. Mr. Lee was subsequently served with a warrant charged with the wrongful operation of an automobile, the arrest having been made at the instance of Mr. Crockett.

The automobile was going south on Second street and Mr. Crockett had just turned in at the northeast corner from Princess street, when he was struck by the auto and thrown under the car with his bicycle. That he was not more seriously injured, seemed miraculous to a number who witnessed the accident. Mr. Lee at the police station later gave bond in the sum of $25 with Mr. W. H. McEachern as surety for his appearance in the Recorder's court Wednesday morning.

NEW BICYCLE PROPELLER

Mr. F. M. McGowan Has Unique Present From Mr. Pembroke Jones

There was quite a bit of interest yesterday in the downtown section when Mr. F. M. McGowan, of Wrightsville, came into the city riding his bicycle with a smal motor attachment. Mr. McGowan says that on his recent visit to his Southern home on the beach, Mr. Pembroke Jones, of New York, saw him riding his bicycle quite a lot and told him of a unique motor attachment he had seen in use the past summer at the famous resort, Newport, which he would send Mr. McGowan as a present.

The present came a few ago. It is a little wheel about 15 inches high, with a cylinder, four inches in diameter and ten inches long, on the top. The wheel trails along about six inches from the rear wheel and pushes the cycle by a bar attached to the frame. The attachment costs only $60 and will drive a bicycle at almost any speed that can be made with a motorcycle.

SALE OF BOWDEN PROPERTY

Lot at Fourth and Chestnut Streets Purchased by Mr. Sigmond Bear

A deed was filed in the office of Register of Deeds yesterday by which Mrs. Ann E. Bowden transfers to Mr. Sigmond Bear the valuable property on the northwestern corner of Fourth and Chestnut streets, the consideration being, it is understood, in the neighborhood of $9,000. The sale was closed yesterday through the real estate agency of Mr. L. W. Moore. The property has a frontage of 95 feet on Chestnut street and of 106 feet on Fourth street. It is understood that the house on the property will be transferred very near the west line so as to give two lots on Fourth street.

A deed was also filed yesterday by Which W. G. A. Otersen transfers to J. A. Carter and wife, for $100 and other valuable considerations, lot 1 in block 11 at Carolina Place.

ATTEND FIRE FIGHTERS' RALLY

Chief Schnibben and President McNeill Going to Southport Next Monday.

Chief Chas. Schnibben, of the Wilmington Fire Department, has just accepted an invitation to attend the fire fighters' rally at Southport next Monday, November 22nd. Chief Schibben will be met here by Chief J. D. McNeill, of Fayetteville, president of the North Carolina Fire Association, who will spend Sunday night as a guest of Chief Schnibben and go down on the steamer Wilmington Monday morning.

Southport has just completed her new water and sewerage system and wants to get in shape for fighting fires. Chief Schnibben and Chief McNeill will give the South port people many valuable pointers in the matter of protecting the town from the damages of fires, and will incidentally be royally entertained by the genuine Southern citizenship of that place.

FUNERAL OF MRS. HARRISON

Impressive Services Held From Union Station—Burial in Oakdale.

A large concourse of friends were in attendance yesterday afternoon at 3 o'clock at the funeral of Mrs. W. F. Harrison, daughter of Mrs. W. H. Pettway, No. 416 South Fifth Avenue, whose death occurred Sunday morning at her home in Gainesville, Ga., which was conducted from the Union station. Rev. W. R. Noe, rector of the Church of the Good Shepherd, conducted the services in the absence of Rev. Wm. E. Cox, rector of St. John's Episcopal church, of which the deceased had been a member. Interment was at Oakdale cemetery, where many and beautiful floral tributes showed the high esteem in which the deceased was held.

The pallbearers were: Messrs. Eddie Schulken, George Moore, Benjamin Dunham and Clayton Moore.

GIRLS IN BAD HEALTH.

Hundreds of girls go to work day after day, afflicted with some ailment peculiar to their sex, dragging one foot wearily after the other, working always with one eye on the clock and wishing for closing time to come. Every such girl should rely on Lydia E. Pinkham's Vegetable Compound to restore her to a normal healthy condition, then work will be a pleasure. For forty years this famous root and herb medicine has been preeminently successful in controlling the diseases of women. Why don't you try it?

BUILD BRIDGE AT KINSTON

Public Hearing Held There Next Monday to Discuss Matter

Capt. C. S. Ridley yesterday announced that on next Monday a hearing would be held at Kinston in the matter of the bridge to be erected over the Neuse river, at the foot of Caswell street, Kinston, N. C.

All interested parties are expected to be present and give in any information and express their opinions. It is especially desired that the navigation interests be represented, and any officials and organizations, whose interests may be affected, will also be heard.

Plans for the structure and map of location will be available for inspection at the hearing.

WITH MOVING PICTURE FIRM

Mr. Marx Nathan Now Representing Philadelphia Feature Service.

Mr. Marx Nathan was in the city yesterday after absence of several weeks during which time he visited friends in New York and spent some time in Philadelphia. He is now connected with the Kleine-Edison Feature Service for moving picture theatres with headquarters in Philadelphia. Mr. Nathan will represent this firm in Eastern North Carolina and in Virginia. He leaves this morning for Newbern and while he does not expect to spend much time in Wilmington, his many friends here will be glad to know that his business will bring him to this city occasionally.

REV. MR. MYERS AT DELGADO

Will Conduct Interesting Series of Meetings This Week.

A series of meetings will be conducted this week in the Presbyterian church at Delgado by Rev. C. Claude Myers, of Kannapolis, N. C. The hours of services are 2:30 and 7:30 p. m. The first service was held last night.

Mr. Myers is a guest at the home of Mr. W. A. Woods, superintendent of the Delgado Cotton Mills. He is pastor of a flourishing Presbyterian church at Kannapolis, which is an important cotton milling town, and has a strong Presbyterian congregation.

It will be a special treat to all people living near Delgado to hear Mr. Myers.

AGED GRANDMOTHER DEAD

Mr. Harry E. Payne Called to Madison Yesterday on Sad Mission.

Mr. Harry E. Payne, a well known druggist in this city, received the sad intelligence yesterday morning that his aged grandmother, Mrs. Mary E. Payne, had died at her home at Madison, N. C. She was 92 years old. Mr. Payne left last night for Madison to attend the funeral.

There are three other grandchildren in Wilmington, these being Mrs. E. L. Green, Miss Minnie Payne and Mr. Cecil Payne. Surviving are four sons and two daughters, all of whom live at Madison.

Meeting of Ministers.

The regular weekly meeting of the Wilmington Ministerial Association was held yesterday morning at 10 o'clock in the Y. M. C. A. Rev. F. B. Clausen read a very interesting paper on the "Future of Prostestantism," which was discussed with much enthusiasm by a number of the ministers. The devotional exercises were conducted by Rev. T. G. Vickers. Rev. J. J. Sullivan, the newly elected president, presided and Secretary J. B. Huntington kept a record of the proceedings.

Natural Education Exhibit.

A cordial invitation is extended the public to attend the demonstration of "What is Natural Education," which will be given at the Corn and Agricultural Show this afternoon and also tomorrow afternoon from 3 to 5 o'clock by Miss Margaret Pierce and her training class of eight young women.

Washington, Nov. 15.—A storm central on the coast of Maine moving east over the Atlantic has caused storm warnings to be displayed from Eastport to New York.

BULLETIN ON "TEACHING OF COUNTY GEOGRAPHY"

Work Prepared by Prof. M. C. S. Noble is Published by the University.

(Special Star Correspondence.)

Chapel Hill, N. C., Nov. 15.—Extension series bulletin No. 12 on "The Teaching of County Geography" is now ready for distribution. This bulletin was gotten up for the University Bureau of Extension by Prof. M. C. S. Noble, dean of the school of education. As Professor Noble says in the introduction, "the purpose of this bulletin is to give methods and suggestions to those teachers who wish to teach their pupils the geography of their county." In this study Orange county is used as a model. First an outline of topics is presented, and then follows a brief presentation of the geography of Orange county based on this outline. Professor Noble is of the opinion that a careful reading of the outline and of the presentation of Orange county geography will suggest to teachers in other counties how they may follow the same outline in teaching the geography and history of their own county.

The general outline for this study falls under five heads: physical-political; historical-political; industries; towns; history, and education. Each of these heads is then taken up in detail.

Realizing that a bare outline of county geography and history would be insufficient, Professor Noble follows this up with a resume of Orange county geography and history. For instance, among the items taken up under the historical political heading, he shows—for whom the county was named and by whom settled, population, occupation, crops, wealth of county, road system, manufactures, towns and schools.

The last five pages of the bulletin are given over to "suggestive questions for the teaching of county geography and history, taking Orange county as a model." As Professor Noble points out, the purpose of these questions, and of the outline in general, is to aid the pupil in building up his own county geography and history by writing at least one sentence under each topic of the outline.

FOR BANTAM WEIGHT TITLE.

Date of Fight Between Williams and Burns hanged to Dec. 6.

New Orleans, Nov. 15.—The 20-round bout for the bantam weight championship of the world between Kid Williams, of Baltimore, the title holder, and Frankie Burns, of Jersey City, will be fought here December 6th instead of November 29, it was announced tonight. The weights will be 118 pounds, ringside.

Former Police Officer Arrested.

Mr. L. A. Justice, a former member of the Wilmington police force, was taken in custody last night by County Officer H. Mack Godwin on a warrant sworn out by Mrs. Justice, charging her husband with threatening to do her bodily harm. He was lodged in the county jail in default of bond in the sum of $250. He is to have a hearing today before Justice W. A. McGowan before whom the affidavit was made.

Rheumatism Easily Relieved By Cleansing the Blood

S. S. S. Gives Quick Relief by Toning Up the Blood

Yes, but how? A natural question. The answer is that you must cleanse your blood by stimulating it to healthy, vigorous action, so that it will throw off the germs and impurities that cause Rheumatism. The action of the wonderful blood purifier, S. S. S. is to practically renew the life blood, give it vigor, stimulate the flow making it throw out the germs and the poison impurities. The excruciating pains of Rheumatism, whether it is the shooting, stabbing Sciatica, the gripping agony of muscular Rheumatism, or aching arms and legs that break up sleep will be entirely relieved by S. S. S. Don't use nostrums and drugs. Take the blood bath—Nature's blood tonic, S. S. S. Get it at any druggist, but insist upon S. S. S. Let us tell you about blood diseases. Send for booklet "What the Mirror Tells," or if yours is a peculiar case, write S. S. S. Co., Atlanta, Ga., but begin treatment at once.

THEATRICAL

"September Morn," LeComte and Fiesher's successful musical comedy riot from the LaSalle Opera House, Chicago, has been secured for an early engagement at the Academy of Music.

"September Morn" is without question the greatest musical success of the century and includes a cast of of musical comedy celebrities far above the average; together with a beauty chorus selected f or looks and ability to sing. Among the many song hits that have taken the country by storm are: "September Morn," "I Lost My Girl on Broadway," "In Berlin," "When a Little Boy Loves a Little Girl," "Everybody's Tango Crazy," "Beautiful Dreams I'm Dreaming," "A Spare-Rib From the Butcher Shop of Life," "The Sun-Shade Girl," and "Where is the Pleasure in Wine and Song if the Woman is Not There?"

As a big dance festival including the Tango, Maxixe and Hesitation Waltzes. Summing it all up "September Morn," is a real musical jamboree.

"Wormwood" at the Royal.

Marie Corelli, one of the world's most famous authors, never wrote a more entrancing and engrossing novel than "Wormwood." It has been read by millions. Hence, the Fox Film Corporation have filmed it in a great five act drama, which occupies the screen at the Royal today.

"Wormwood" in the pictures, as in the book, is strikingly dramatic and powerful and holds with a real grip from start to finish. Then, too, the acting and mounting of "Wormwood" is above all praise. Seldom, in fact, has any photoplay had as great a cast and been as well put together as has most entrancing serials you have ever seen on the screen anywhere.

With true dramatic interest, though based on every-day lives and happenings, "The Millionaire Pauper," a great three-reel prize romantic drama, will be presented today. An exceptionally bright cast enacts the leading roles, headed by Grace Thompson and Gretchen Lederer, two of Universal's most beautiful and talented stars. With them are Arthur Shirley, Lon Chaney and Oliver Fuller Golden.

The story of "The Millionaire Pauper" is big enough, and the acting great enough, to draw special attention to this feature, although it will of necessity be put in as secondary picture, with the "Broken Coin" leading the bill. However, it is one of the biggest, if not the very biggest, feature of the week, for its length.

Big Bill at the Grand

Maude Fealy—Richard Travers—Lillian Drew—Carmille D'Arcy—that's the way they read at the Grand today. All these great stars—and more on one day's bill!

The programme is headed by one of those great three-act Knickerbocker Star Features, "The Girl From Tim's place," an elaborate picturization of Charles Clark Munn's well-known novel of the same name. Featured in the title role of this entrancing photoplay is presented Maude Fealy, in the role of "Chip." Miss Fealy is a well-known figure on the spoken stage, and "The Girl From Tim's Place" marks her initial appearance becore the moving picture public. "The Girl From Tim's Place" is an entrancing story of the Maine woods, and abounds in the most beautiful backwoods scenery imaginable.

Essanay presents a great three-reel featured Richard Travers and Lillian featurd Richard C. Travrs and Lillian

He Broke Away and Flung Through the Open Window.

A Scene from the Fifth Chapter of "The Broken Coin" at the Bijou Today.

this feature It's producers claim an "all star cast," as usual, but in this case the phrase is rightly applied. The principal parts are so well handled that a splendidly adjusted dramatic balance is the result. Ethel Kaufman, a sixteen year old leading woman, is wonderfully appealing and charming in the character of the unhappy little heroine. Few actresses come to mind who could have so perfectly both looked and played this role, which is by turns, winsome, pathetic and then suddenly great with raw tragedy. The other members of the cast include John Sainpolis, startling in his realism, Charles Arthur, an effective and sympathetic character as Silviin Guidel, and the same can be said of Edgar Davenport, Lillian Dilworth, and other members of the capable cast.

If you are in search of a thrill, a magnificent picture drama and an unforgettable lesson, all rolled into one, don't miss "Wormwood."

(This review is from the unbiased criticism published in "The Moving Picture News"). 'Nuff sed!

"Great Day" at Bijou.

Today is to be a great day at the Bijou. The fifth great chapter of "The Broken Coin" heads the bill, and judging from the increased attendance last Tuesday, standing room will be at a premium, especially at night. "The Broken Coin" is taking like "wild fire" and the many admirers of Grace Cunard and Francis Ford are simply going wild over their great work in this, the greatest of all serials. If you haven't yet begun to follow them, you want to start today—with the synopsis—and follow it through. It will furnish you many an hour of solid enjoyment, and prove one of the

MARIE CORELLI.

Author of "Wormwood," an Exquisite Picturization of which is presented at the Royal today.

RICHARD TRAVERS

Starring in "The Reaping," Three-Act Feature, Grand today.

mirably, producing a drama that will appeal to all tastes, and leave a pleasant feeling at the end.

Six great reels! That's the way the new management is treating Grand patrons. Just see if they're not good, too!

TENNESSEE COURT UPHELD BY U. S. SUPREME COUFT

In Setting Aside Judgment for Damages Against C., C. & O.

Washington, Nov. 15.—The Supreme Court today affirmed the action of the Tennessee supreme court in setting aside a judgment against the Carolina, Clinchfield & Ohio Railroad Company, in favor of W. N. Showalter, as administrator of the estate of Robert K. Showalter, a fireman killed outright when his train ran into a boulder.

The Tennessee Supreme court held that there can be no recovery for the instantaneous death of an employee unless the beneficiary of the action shows that the death deprived him of some reasonable expectation of pecuniary assistance or support. The administrator claimed he had a right to sue for the injury received by the fireman although he was killed outright.

PENDER FARMERS TO EXHIBIT AT WILMINGTON CORN SHOW

Court Adjourns—Teachers Meet—Revival Closes—Other Notes.

(Special Star Correspondence).

Burgaw, N. C., Nov. 15.—As the corn show for Pender county that was proposed to be held this fall has been postponed until next spring, it is expected that a good many of Pender's farmers will make exhibits in the Corn Show at Wilmington this week and carry off some of the prizes. Rev. W. S. Key will have an exhibit there from the Carolina Industrial & Training School at Shelter Neck which will be worth seeing.

This has been a fine year for sweet potatoes in Pender. From all reports the farmers have grown more than ever before. One farmer is reported to have housed more than 2,000 bushels. If kept over till next spring, he will realize handsomely for them. They dre a better paying crop than cotton if they can be marketed.

Mr. Joe W. Harris and Miss Annie Jordan, of this county, were united in marriage by A. H. Paddison, J. P., at his home here Sunday afternoon. It was a run-away match.

Superior court adjourned for the term last Thursday afternoon, owing to the illness of Judge Daniels, who had been suffering with a cold during the week. Ten prisoners were sentenced to the roads or other public works in Pender county and seven of these were taken from jail this morning and put to work on the court house square. They will be worked by the county until all arrangements have been made by Burgaw township to put them on the roads. One negro woman was sent to the penitentiary, convicted of manslaughter.

Dr. O. G. Jones closed his meeting at the Presbyterian church here Sunday evening, preaching a very able sermon to a very large congregation. His preaching has been of a high order and results will undoubtedly follow.

The regular quarterly conference of the Methodist church was held Saturday. Presiding Elder L. E. Thompson, of Wilmington, was present and preached the sermon.

The Pender county teachers met here Saturday in the auditorium of the school building and heard an able address by Mr. Crosby, of the State Farmers' Union, on "Community Work." This was the first meeting of the teachers this season and they organized by electing Superintendent T. T. Murphy president and other officers. They will not have another meeting before Christmas.

WARSAW SUFFERS FIRE LOSS

Several Buildings Burned at Loss of Several Thousand Dollars

(Special Star Correspondence).

Warsaw, N. C., Nov. 15.—A blaze of some magnitude occured yesterday morning at three o'clock, when a block of buildings fronting Main street were destroyed by fire, which originated in a large two-story structure, known as the Carleton House, or "Old Hotel," because at one time it was the principal hostelry of the town. It was occupied at the time by the family of Mr. Leslie Carleton, who lost practically all the furniture and wearing apparel they had, escaping with only a few clothes which they hurriedly put on.

The fire is supposed to have originated in the kitchin flue. Value of the building was $2,500, covered by insurance. Owing to inadequate facilities for fighting the fire, three adjoining buildings, valued at $1,000 each were reduced to ashes. These were a 6-room cottage owned by rsM. Catherine Swinson, of Sumter, S. C., and stored with tobacco belonging to D. E. Best; two buildings owned by J. B. Winders, of Parkersourg, and used respectively as a work shop by Capt. A. W. Newcomb, who saved only a part of his material, and costly equipment, and as a restaurant.

On account of the strong wind, many houses even in remote sections of the city were endangered, several of them catching from flying sparks, which were as large as eggs, and had not a slight rain fallen earlier in the night, much greater damage would have been done.

HOUSE OF SOUTHERN GOVERNORS TO BE FORMED AT CHARLESTON

Southern Executives Invited to Attend Commercial Congress.

Washington, D. C., Nov. 14.—Governor Richard I. Manning, of South Carolina has invited the governors and lieutenant governors of all the other fifteen Southern States to gather in Charleston during the week of the Southern Commercial Congress convention, December 13 to 17, with a view to forming the House of Southern Governors. Acceptances already received indicate that each State will be represented by its governor, lieutenant governor, or by both.

This movement grows out of formation of the House of Governors which met first at the White House at the call of President Roosevelt. The Southern governors will deliberate on problems facing Southern executives. It is expected that the meeting will be a regular feature hereafter of the convention of the Southern Commercial Congress, which brings together the men and women in the foremost ranks of the civic, industrial, political, and social life of the South.

"The first meeting of the House of Southern Governors will be devoted principally to a discussion of cotton, credits, and commerce," said Dr. Clarence J. Owens, managing director of the Southern Commercial Congress. "Its members, the highest state officials of the South, will seek at this and subsequent meetings, by common counsel and frank discussion of problems of legislation and law enforcement, to derive new ideas and fresh courage and determination for their arduous work at home. It will be a notable gathering which will assemble fifty years after Appomattox in the historic city of Charleston, where the first gun of the Civil war was fired."

Governor Manning's formal proclamation announcing the meeting calls on all citizens of South Carolina to act as hosts to the governors and the Southern Commercial Congress.

"The Charleston Congress will not only be devoted to the most practical consideration of questions relating to agriculture and education, the industries and commerce," he asserted, "but also to a celebration of the semi-centennial of peace in the United States. The Congress will review the achievements of the South during the last half-century and endeavor to outline plans of action with regard to conservative, statesmanlike activities for the future."

Washington, Nov. 15.—The Supreme Court today recessed until Monday, November 29, for its usual Thanksgiving holiday.

EITHER STATE MAY PROSECUTE

When Liquor is Shipped Unlabelled From One State to Another.

Washington, Nov. 15. — The Supreme Court held today that a man who ships liquor from one state to another without labeling it as such in violation of law may be prosecuted in either state. It reversed the judgment of the Kansas Federal Court which quashed an indictment against Joseph Freeman and remanded the case for prosecution. Freeman was charged with shipping trunks full of liquor unlabelled from Joplin, Mo., to Cherokee, Kas.

The Last Word in Clothes Perfection

BEFORE we ever thought of selling these clothes to you men and young men—these clothes had to be sold to us.

We're mighty close traders—and we're very exacting—for therein lies the secret of our success.

SUITS $15.00 to 28.00 — "High Art" Style Clothes — OVERCOATS $15.00 to 30.00

looked mighty good to us—going and coming. There's where you'll agree.

HIGH ART Style Clothes set the pace in the better class clothing world. Their style, their finish, their durability and their very reasonable price represent the acme of clothing perfection.

For young men—models with snap and go to them, in Roman Stripes, Plaids and mixtures.

For men—models built for conservative or extreme tastes—and models for every build—fabrics to meet every demand.

Slip on these remarkable clothes and your faith in our claim for them will be established—once wear them and you'll use no others.

COTTON NOT VERY ACTIVE

Recessions Follow Early Advance and the Close was Unchanged to Three Points Higher.

New York, Nov. 15.—An early advance was followed by recessions in the cotton market today with January selling off from 11.95 to 11.81, but the loss was recovered later with the close steady net unchanged to three points higher.

Reports of freezing temperatures of heavy frosts in the western belt and the forecast for much colder weather east of the river, appeared to be largely responsible for early strength both here and in Liverpool. The feeling seemed to be that the cold wave would prevent any further development of the crop and private cables reported that shorts were showing an inclination to cover in the English markets. The opening here was four to eight points higher in consequence. The demand, however, was not active.

Notwithstanding the comparatively wide difference between New York and Liverpool, there was little or no sign of English buying around the local wing, and the market soon turned easier under realizing and Southern selling, with March and May selling off to a net loss of about 7 points. At this level the market was steadied by Wall Street support and covering with last prices showing rallies of several points from the lowest on predictions of bullish ginning returns for the period ended last Saturday, and the rather larger export movement.

Cotton futures closed steady.

	Open.	High.	Low.	Close.

Sheep—Weak; wethers 5.75 to 6.25; ewes 3.60 tot 5.55; lambs 6.75 to 9.00.

NEW ORLEANS COTTON

Market During the Day Showed But Little Change in Prices.

New Orleans, Nov. 15.—Cotton did not show much price movement today, considering the importance of weather news. Following an initial bulge of 13to 15 points, active months went six to eight points under the Saturday's close. The close was unchanged to one point down.

On the opening there was a large volume of buying orders, stimulated by the wet and cold weather over the belt Sunday. Many important sections of the central and western belts sent in accounts of frost and freezing and it was generally considered that in those portions of the belt the plant was finished. The outlook appeared to be that similar conditions would visit the eastern belt tonight. On the advance, however, large offerings exerted great pressure on values.

Exports to foreign countries from all ports for the day were 47,702 bales as compared with receipts of only 25,220 bales. This was one of the most favorable showings made by the ports this season, but it attracted little comment.

Cotton futures closing bids: December 11.83; January 11.72; March 11.99; May 12.15; July 12.25.

Spot cotton steady, unchanged. Sales on the spot 815 bales to arrive 2,925. Middling 11.44.

WHEAT PRICES ARE HIGHER

Foreign Buying Had Bullish Influence on the Market—Other Leading Staples Show Loss.

Chicago, Nov. 15.—Foreigners buying future deliveries had a bullish influence today on wheat. The market closed nervous, but 1 to 1⅛c net higher, with December at 1.06⅛ and May at 1.07½. Other leading staples all showed a loss—corn a shade to ⅜c; oats ⅛ to ¼c, and provisions 7½ to 25c.

Grain and provisions closing:

Wheat	Dec.	1.06⅛	May	1.07½
Corn	Dec.	60⅞	May	64⅝
Oats	Dec.	38⅞	May	40⅜
Pork	Jan.	16.45	May	16.47
Lard	Jan.	9.00	May	9.12
Ribs	Jan.	9.00	May	9.17

Cash Grain: Wheat—No. 2 red 1.14½ to 1.15½; No. 3 red 1.09½ to 1.12½; No. 2 hard 1.06 tot 1.08¼; No. 3 hard 1.01½ to 1.05½.

Corn—No. 2 yellow, old, 65 to 65½; No. 4 yellow, new, 59½ tot 60¼; No. 4 white, new, 57½ tot 58½.

Oats—No. 3 white 35¾ to 36¼; standard 39½ tot 39¾.

COTTON SEED OIL MARKET.

New York, Nov. 15.—Cotton seed oil was higher early today on professional support induced by frosts in the South, but prices gave way later to liquidation on the weakness in lard. Final prices were 2 to 5 points net lower. Sales 17,200 barrels.

The cotton seed oil market closed grm: Spot 7.85 big; November 7.85 to 8.10; December 7.82 to 7.85; January 7.82 tot 7.84; February 7.85 to 7.90; March 7.93 to 7.96; April 7.97 to 7.99; Mal 8.04 to 8.06; June 8.13 to 8.14.

STOCK MARKET IRREGULAR

Marked by Succession of Declines and Fitful Rallies—Final Prices Showed Improvement.

New York, Nov. 15.—A succession of declines and fitful rallies marked today's irregular market. The first decline followed a moderately strong opening, the second occurred at midday on rumors of another marine disaster in the European war zone, and the third came at the last hour, largely obliterating all gains. Final prices showed more improvement, mainly on the continued strength of the metal group.

Coppers were the real feature of the list. Anaconda rose 2 3-8 to the new record of 89 3-4 and Utah also made a new maximum on its advance of 1 3-4 to 77. Studebaker was the most erradic war stock. Opening at an advance of 7 points to 176 which was soon cancelled. Later is regained much of its decline, only to fall lower than before. Other automobile issues, especially Willys-Overland and General Motors, rose and fell in sympathetic manner and the same uneven tendency was shared by minor industrial and equipment stocks. United States Steel was under steady pressure after its initial fractional rise, declining from 87 7-8 to 86 3-4 and closing at 87. Rails were prominent in the realy dealings. Canadian Pacific, Chicago, Northwestern and North Pacific were among the few elements of strength, but these lost much of their advantage in the late dealings.

London continued its offerings of American stocks and bonds. Mercantile Marine issues, which were very strong, forming a large part of the foreign selling. Total sales of bonds, par value, aggregated $6,020,000. United States and Panama bonds were higher by quarter to one per cent. on call.

SOUTHERN RAILWAY
NEW TRAINS 31 AND 32
between
AUGUSTA AND NEW YORK.

The Southern Railway inaugurated new trains effective Sunday, Oct. 24th, between Augusta, Columbia, Charlotte and Greensboro, to Washington, Baltimore, Philadelphia and New York, on fast and convenient schedule. New train No. 32, northbound, will pass Greensboro at 10:25 P. M., arrive Washington, D. C. 7:00 A. M., New York, 12:57 P. M. New train No. 31, southbound, will pass Greensboro at 3:35 A. M.

This new train service should be particularly advantageous to patrons from Raleigh, Durham, Burlington and all intermediate points, going to Washington, Baltimore, Philadelphia, New York and Northern cities, as train No. 131, from Raleigh to Greensboro, will connect with this new train northbound.

This elegant new train will consist of all steel electric lighted equipment, carrying Pullman sleeping cars, dining cars and day coaches to Washington and New York.

For Pullman Reservations, information, etc., call on any Southern Railway Ticket Agent, or communicate with

NOTICE OF TRUSTEE'S SALE OF REAL ESTATE.

By virtue of and pursuant to a decree of the District Court of the United States for the Eastern District of North Carolina, sitting in bankruptcy, in a cause therein pending entitled "In the Matter of G. Henry Haar, Bankrupt, in Bankruptcy," the undersigned duly elected Trustee in Bankruptcy will on Monday, the 29th day of November, 1915, at 12 o'clock M., at the court house door in New Hanover County, offer for sale for cash to the highest bidder, those certain tracts or parcels of land situated in the City of Wilmington, County of New Hanover, State of North Carolina, and bounded and described as follows:

FIRST TRACT.

Beginning at a point in the Northern line of Pender Ave., 82 ft. 6 in. East from the Northeast intersection of Pender Ave. and 20th Street and running thence North parallel to 20th Street 113 ft. to an alley; thence East parallel to Pender Ave. 49 ft. 6 in.; thence South parallel to 20th Street 113 ft. to the Northern line of Pender Ave.; thence West along Pender Ave. 49 ft. 6 in. to the beginning. Being all of Lot 9, and East half of Lot 10, in Block 21, according to the map of Carolina Place, which map is recorded in the office of the Register of Deeds of New Hanover County, in Book 48, at page 180.

SECOND TRACT.

Beginning at a point in the Northern line of Princess Street 99 ft. East from the Northeast intersection of 16th and Princess Streets, and running thence North parallel to 16th Street 165 ft. to a ten foot alley; thence East parallel to Princess Street 33 ft.; thence South parallel to 16th Street 165 ft. to the Northern line of Princess Street; thence West along Princess Street 33 ft. to the beginning. Being part of Lots 3, 4 and 5, in Block 481, according to the official plan of Wilmington.

THIRD TRACT.

All of the right, title and interest of said Trustee in and to the following tract:

Beginning at a point in the Western line of Fifth Street 104 ft. South from its intersection with the Southern line of Nun Street, and running thence westwardly parallel to Nun Street 165 ft.; thence Southwardly parallel to Fifth Street 28 ft.; thence eastwardly parallel to Nun Street 165 ft. to the Western line of Fifth Street; thence Northwardly along the Western line of Fifth Street 28 ft. to the beginning, together with the right to use in common with the owner of the lot immediately North of this tract an alley 10 ft. in width and extending in depth 165 ft. This tract is subject to a mortgage to Wilmington Homestead & Loan Association for $1,000, and to a mortgage to Mary E. Sweeney for $750, and to the Homestead allotment of said G. Henry Haar as the same are recorded in the office of the Register of Deeds of New Hanover County.

The second tract above described is subject to a mortgage to Wilmington Homestead & Loan Association of $600, as the same is recorded in the office of the Register of Deeds of New Hanover County.

This sale is made subject to confirmation by the Court. The bidding on the tract first above described will begin at $335.50. The bidding on the tract second above described will begin at $1,141.25.

BURKITT RE-INSTATED BY PRESIDENT'S ORDER

Regardless of the Charges Filed Against Him.

Was Dismissed Recently From Winnetka, Ill., Postoffice Because of Remark He Made Regarding President's Engagement

Washington, Nov. 15. — President Wilson today directed the re-instatement of George Burkitt, the assistant postmaster at Winnetka, Ill., who was dismissed after he had criticised the President's engagement to be married. It was said at the White House that the man would be restored to office regardless of various charges filed against him.

Dismissal of Burkitt was ordered recently by Assistant Postmaster General Roper on the recommendation of Postmaster Kloepfer in Winnetka and the order actually has taken effect although all the legal formalities had not been completed and only today the papers in the case had been turned over to an inspector for further investigation. Mr. Roper said tonight that the White House order had not reached him.

Earlier the department had issued a statement that the remarks made by Burkitt about the President's engagement constitute only an incident which alone would not have been sufficient ground for his removal, but that this was one in a series of admitted offenses which had been accummulating for several months against the record of this employee."

The President acted as soon as the case was brought to his attention. At first itw as announced that Burkitt's re-instatement was ordered "if no other charges were found against him," but tonight officials stated that the order was unqualified.

SAYS CHARGE POLITICAL

Burkitt Says There Was No Charge of Inefficiency Against Him

Chicago, Nov. 15.—George Burkitt, assistant postmaster at Winnetka, a suburb, when informed, that President Wilson had ordered his re-instatement if the charge of commenting on the President's bethrothal is the only one against him, said:

"There was a mention of inefficiency in one of Postmaster Kloepfer's letters to me, but I have been unable to find that he had made any formal charge against me. I am a hold-over from the previous administration and Winnetka citizens will testify that my inefficiency is purely political."

STREETER AND FOLLOWERS LIBERATED UNTIL HEARING

He is Arrested on Second Charge and Trial Set For Today

Chicago, Nov. 15.—Captain George Wellington Streeter, who yesterday defended unsuccessfully his home on the sand lots of Lake Michigan, and his wife, Stella, and fourteen others taken in the raid on Streeterville, where, acording to the police, Streeter was selling intoxicants, appeared in police court today and demanded jury trials. The cases were assigned to another court and Streeter and his followers liberated until a date was set for a hearing.

Before he left the court room, Streeter was again arrested charged with having sold liquor without a license on November 10 and 12. He was released later on this charge and his hearing set for tomororw.

It was learned from Washington today that no patent has ever been issued by the land office for the land Streeter occupies and that a ruling was once made by the land office that the tract belonged to the state of Illinois.

JUDGE LINDSAY CONVICTED

Fined $500 and Costs for Contempt of Court—May Appeal.

Denver, Colo., November 15.—Ben B. Lindsay, judge of Denver juvenile court, was held guilty of contempt of court and fined $500 and costs by Judge John A. Perry, in the district court late today. Thirty days were allowed for an appeal. The case grew out of Lindsay's refusal to disclose information in the trial of Mrs. Berta Wright on a charge of murder.

Judge Lindsay claimed that information came to him in a privileged manner through the confession of Neal Wright, 12 years old, during the trial. An information, charging the boy with the murder of his father because of an alleged confession made at his mother's trial, still is pending in the Juvenile court. Mrs. Wright was acquitted.

Cleveland, Nov. 15.—The steamer Charles A. Luck, thought lost in a gale on Lake Superior last week, is safe, according tot word received today by Mrs. Emil A. Gahn, from her husband, who is chief engineer of the Luck. The message said the ship was in shelter and the crew of twenty all safe.

BRYAN AT CHARLOTTE HEARD BY THOUSANDS

Says Belligerents Will be Too Tired of War to Fight.

Says Alarm About Preparedness is Caused by Jingo Press, Urged on by Munitions Manufacturers —Opposes President.

(Special Star Telegram.)

Charlotte, N. C., Nov. 15.—Between 3,500 and 5,000 people heard W. J. Bryan in the city auditorium tonight on "The European War and Its Lessons For Us," in which he spoke in opposition to the President's preparedness plans and urged that such a programme would tend to provoke rather than to avert war.

He quoted the President and said no Nation is threatening us and that it is the jingo press, urged on by munitions manufacturers, that is causing all the alarm.

There is less likelihood than ever that we will be attacked, he said, for all the belligerents will be too tired of war when this is over to think of going into another.

He held that the treaties recently signed with foreign nations is the way out of war and a means of staying out. Whatever programme of preparedness should be decided upon should not be undertaken while the present war continues, he said, because it would be saying to those nations that "we have been pursuing the wrong policy for a hundred years and we agree with you that might makes right." The audience manifested marked enthusiasm and sympathy with his views.

Mr. Bryan spoke at Winthrop College, Rock Hill, S. C., this afternoon.

AT CHAPEL HILL

Speaks on "The War in Europe" and "The Making of a Man."

(Special Star Correspondence.)

Chapel Hill, Nov. 15.—The magnetic name of William Jennings Bryan drew into Memorial Hall at 11 o'clock yesterday in spite of the raw rainy weather a crowd of almost 1,500 people—even more than inauguration day drew last year. About 800 of these were students and of the remaining 600 townspeople at least half were women.

Mr. Bryan discussed the European war—its magnitude and its danger to neutrality; the false philosophy from which it sprung, the philosophy that might makes right; and finally the way out and the road to peace. He spoke again at 2:30 on "The Making of a Man."

Mr. Bryan's wife accompanied him upon this trip. His last trip to the University was made about 1895. "Since then," said President Graham in his introduction of the speaker, "a great many things have happened to us, to the world and to Mr. Bryan. No man in the world has been the center of a more complex struggle for human rights, no man has been buried more times with more envious ostentation and no man has risen more regularly to the championship of what he believes right."

Throughout Mr. Bryan's speech balancing his love of peace, was his hatred of what he calls "the jingo editors" who, as he said, are trying to plunge our country into war by advocating undue preparedness and attempting to scare the people by the bugbear of Japan and the fate of Belgium. In this connection he said: "I am a journalist and proud of my profession but not of all the members of it. If we ever have a war I think the jingo editors ought to be put on the front line and given the glory of dying before anybody else."

THRONGED AT GREENSBORO

Three Times as Many Try to Hear Bryan as Succeed.

(Special Star Correspondence.)

Greensboro, N. C., Nov. 15.—The crowd that endeavored to hear William Jennings Bryan last night—and one-third of which succeeded—demonstrated that the "Commoner" has not lost his hold upon the people of Greensboro and vicinity. Bryan came here to speak under the auspices of the ministerial association and all protestant churches gave way to the service. Rev. C. W. Byrd, of West Market Street M. E. church, introduced the speaker. While the address, or sermon, was not long it made a wonderful impression upon the audience.

The service was scheduled to begin at 8 o'clock, but Mr. Bryan was delayed for some reason, and, as before when he was here, was half an hour late. At 7 o'clock the doors of the opera house were opened and all seats were filled in a few minutes, leaving enough to fill it again on the outside. There is no way of estimating the number of people that came in the next hour and had to go back. The speaker would easily have had an audience of 5,000 if the hall had been large enough.

WILL REMODEL CLUB HOUSE

Carolina Yacht Club Held Enthusiastic Meeting Last Night—All Officers Re-elected.

At a largely attended and enthusiastic meeting of the members of the Carolina Yacht Club in the Court House last night, it was decided to remodal the club house at Wrightsville Beach, Commodore H. J. MacMillan, who was re-elected for another year, was authorized to appoint a building committee which will have charge of the improvements. A portion of the reserve fund was set aside for this purpose and it is expected that the work will be completed before the opening of the next season.

The club has a handsome club house and when the improvements are finished, the headquarters of this organization will be one of the most attractive of any similar club in the South. It is planned to install a model up-to date cafe and to put in sleeping rooms for members of the club and to make other changes which will add greatly to its convenience.

The following officers of the club were re-elected for another year:

Commodore—H. J. MacMillan.
Fleet Captain—J. S. Brown.
Flag Captain—Waddell Watters.
Purser—R. G. Rankin.
Measurer—S. G. MacMillan.
Marshall—H. McL. Green.

Messrs. Burke H. Bridgers, Milton Calder and P. W. Davis were elected as new members of the governing board.

MANY CASES CONTINUED

Recorder Had Heavy Docket Yesterday, but Few Ready for Trial.

A good number of alleged offenders were called yesterday in the Recorder's court, but few were ready for trial. Probably the most important were the negro, Jim Davis, arrested yesterday and charged with burglary, and Mr. Oscar Lawrence, charged with assaulting little Daisy Robbins.

The case has not been well worked up against the negro and his case was continued until today. He is in jail in default of $200 bond. Upon motion of his counsel and a statement from the solicitor, Mr. Lawrence was recognized in the sum of $500 for his appearance for trial today. It is declared by friends of Mr. Lawrence that charges against him are entirely without foundation.

Among the other cases continued until today are those of George Pigford, colored, charged with stealing logs from the Chadbourn Lumber company; Edgar Garrison, colored, charged with assault with deadly weapon, now in jail in default of $200 bond; and Nora Sumter, colored ,who has been called several days, on charge of vagrancy.

Isabella Hilton, Rosa Carlton and Beulah Pickett, all colored, were found not guilty of disorderly conduct.

CEMENT PRODUCTS CO. EXHIBIT

Fine Line of Sanitary Tanks at Textile Exposition, Greenville, S. C.

The Cements Products Company, of this city had an attractive exhibit at the Southern Textile Exposition and Convention the last week in October at Greenville, S. C. In writing up the exhibits, The Textile Manufacturer had the following to say:

"Cement Products Co., Wilmington, N. C., exhibited a line of its sanitary tanks for mills, villages and schools. These tanks provide a perfect sewerage system at small cost even where no running water is to be had. These tanks have the recommendation of the United States Public Health Service. They are made of concrete, reinforced with steel fabric to prevent cracking, and are waterproof, preventing leaking and absorption, thus creating a permanent waterproof container. They also solve the fly and mosquito problem, require no chemical or cleaning, and will not become offensive. The exhibit was in charge of J. F. Harris, vice president of the company. Mr. G. E. Kidder, secretary and treasurer of the company, was also in attendance."

BECOMES MANAGER OF ROYAL

Mr. Julius P. Taylor Gets Early Promotion With Picture Shows.

It was announced yesterday that Mr Julius P. Taylor, who a few months ago became advertising manager for the moving picture houses of Messrs. Howard & Wells, has been made manager of the Royal theatre. This is quite a desirable promotion for Mr. Taylor, and his wide circle of friends will be glad to know that his good qualities have been recognized. Mr. Taylor is not only experienced in the amusement business, but he is a well known man in Wilmington, and very popular because he is so enthusiastic in whatever work he may be doing. The patrons of the Royal will be glad to know of Mr. Taylor's success.

AFFRAY AT POSTOFFICE

Two Well Known Gentlemen Engage in Spectacular Fisticuff.

Mr. P. E. Rogers, assistant engineer on the German steamer Kiel, interned here, and Mr. Jacob Haas, a Wilmington painter, engaged in a fisticuff in front of the postoffice building yesterday afternoon about 5 o'clock. They were handling their fists in spectacular style when Mayor P. Q. Moore and Chairman W. A. McGirt, of the Board of County Commissioners, parted them. The gentlemen were taken in custody by County Officer H. Mack Godwin and taken before Justice Harriss, who recognized them for a hearing today.

IN UNITED STATES COURT

Civil Docket Resumed After Short Recess—Salvage Case.

Following a recess since Saturday, Judge Connor re-convened United States District Court yesterday morning at 10 o'clock to resume the hearing of civil cases.

The only case taken up yesterday was that of the Salvage Corporation, of Norfolk, Va., against R. B. Cromartie, of Bladen county, for alleged failure to carry out contract. The evidence was not all in yesterday when court adjourned. The case will be resumed today.

Negro Methodists Meet Here.

The 47th annual conference of the A. M. E. church, for colored people, will be convened tomorrow at 10 o'clock at St. Stephen's church, this city. The conference will be opened with an address by Rt. Rev. L. J. Coppins, D. D., of Philadelphia, Pa., the presiding Bishop. Following Bishop Coppins will be Rev. J. Albert Johnson, who has just returned from Africa, where he spent eight years. The conference will last through Sunday. The colored people of the city are anticipating a treat in having the Methodist ministers with them.

Third Prise for Parade.

The Wilmington Steam Laundry has generously donated to the Rotary club a certificate for ten dollars worth of work at the laundry which will be given to the firm having the third best float in the parade tomorrow. The first prize will be $15 in cash and the second will be $10 in cash.

AUTO ACCIDENT AT VINELAND

Mr. H. F. Schulken and Members of Family Injured Thursday Night.

(Special Star Correspondence).

Vineland, N. C., Nov. 15. — Mr. H. F. Schulken, Mrs. Lizzie Schulken and Martin Schulken are recovering from severe injuries received last Thursday night when a surry in which they were riding was run into by an automobile driven by Mr. Alex Powell. The surry was wrecked and that the occupants of the vehicle were not more seriously hurt in considered miraculous. All were thrown out; Mrs. Lizzie Schulken was badly bruised on the head and other parts of the body; Martin Schulken was knocked senseless and bruised about the back and Mr. H. F. Schulken had his leg hurt. Friends are glad to know that all are improving now.

TWO MEMBERS OF GANG OF "BUSHWOMEN" ARE FINED

Evidence Against Other Ten Insufficient to Convict.

(Special Star Telegram.)

Raleigh, N. C., Nov 15.—The trial of twelve well known young men banded as "bushwomen," on the charge of raising a serious disorder two weeks ago at Monarch pool room, terminated tonight in the conviction of two, Bob Wynne being fined $50 and Frank Cates $25. All the others were dismissed on lack of fixing misconduct.

It had been expected that evidence would be developed that would be used in the investigation of the official conduct of Police Patrolmen Lloyd and Pearce, but there were no developments of the sort in the evidence. However, there will be an investigation of these officers on other charges. In fact it is understood that the new chief of police, C. F. Koonce, has other men slated for these two positions.

New York, Nov. 15.—Willie Hoppe won the first match of the handicap 18.2 balk line tournament which began here tonight when he defeated Koji Yamada 500 to 168. Yamada had been given a handicap of 125 points. Hoppe's high run was 278 and Yamada's 20. The averages were: Hoppe 83 2-6; Yamada, 28.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

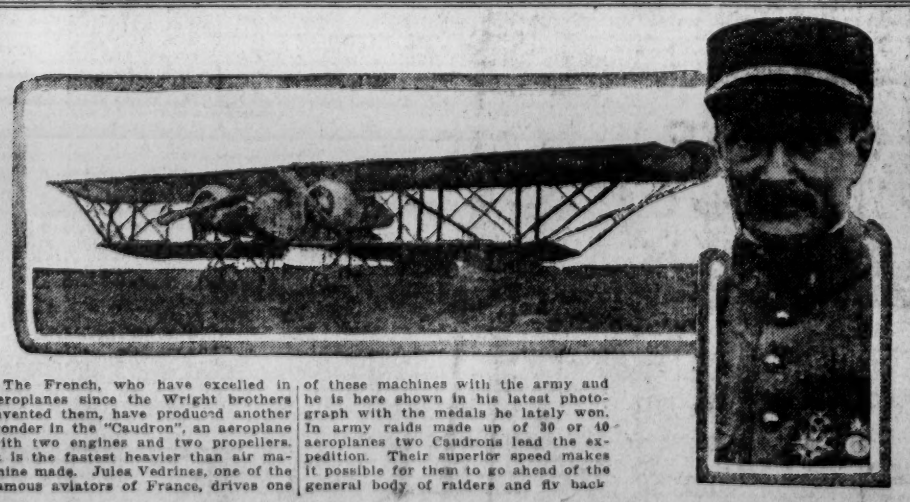
French "Caudron" Greatest Aeroplane, and Famous Driver



The French, who have excelled in aeroplanes since the Wright brothers invented them, have produced another wonder in the "Caudron", an aeroplane with two engines and two propellers. It is the fastest heavier than air machine made. Jules Vedrines, one of the famous aviators of France, drives one of these machines with the army and he is here shown in his latest photograph with the medals he lately won. In army raids made up of 30 or 40 aeroplanes two Caudrons lead the expedition. Their superior speed makes it possible for them to go ahead of the general body of raiders and fly back
